LARGEST CIRCULATION IN DULUTH

HERALD'S CIRCULATION.

17,148
HIGH-WATER MARK.

HERE'S THE INCREASE

OF DULUTH'S GREAT NEWSPAPER,
THE EVENING HERALD

Its actual circulation exceeds by 1000 copies that of all other Duluth dailies combined.

THE NET INCREASE IN CIRCULATION since the reduction to ten cents per week on December 1st, 1895, to and including January 10, 1896,

2240

A. C. WEISS, General Manager of The Duluth Evening Herald, does solemnly swear that the actual net increase in the circulation of The Evening Herald since December 1st, 1895, to and including January 10, 1896, is 2240 full and complete copies. This does not include any sample copies, but is the actual bona fide increase of new subscribers and street sales.

A. C. WEISS,
Sworn and subscribed to before me this 17th day of January, A. D. 1896.
(Notarial Seal) JOHN H. McGEFFERT,
Notary Public, St. Louis Co., Minn.

THE WEATHER.

United States Agricultural Department, Weather Bureau, Duluth, Jan. 22.—A high pressure area and cold wave has moved across the Canadian Northwest provinces, Montana, North Dakota and Northwest Minnesota. In the region north of Montana and North Dakota, the temperature at 7 a. m. today ranged from 4 to 38 degrees below zero.

Light snows are generally reported in the Upper Missouri valley and in the Lower Missouri and Central Mississippi valleys. Cloudy weather prevails in all districts except the Northern Rocky mountain region.

Duluth temperature at 7 a. m. today, 21; maximum yesterday, 24; minimum yesterday, 10.

Local forecast for Duluth and vicinity until 7 p. m. tomorrow: Snow and much colder; a cold wave; winds shifting to west-northwest. Thursday: Snow; much colder; a cold wave; high northern winds.

Washington, Jan. 22.—Forecast until 8 a. m. tomorrow: Windy; cold wave; snow; much colder; a cold wave; high northern winds.

Chicago, Jan. 22.—Forecast until 8 a. m. tomorrow: Windy; cold wave; snow; much colder; a cold wave; high northern winds.

The Elk River Star-News has returned to the defense of Auditor Dunn from the rumors which The Herald recently stated are in circulation regarding him in connection with the attempt to secure possession for the state of a part of the famous section 30 on the Vermilion iron range. The defense, however, is accompanied by an attack upon The Herald for presuming to refer to the rumors that are in circulation, from which it is evident that the Star-News does not properly appreciate The Herald's attitude. The Herald has not tried to besmirch Auditor Dunn's reputation, but on the contrary it has endeavored to give him an opportunity to put at rest the stories that are in circulation reflecting upon his official conduct. Mr. Dunn has not seen fit to take advantage of the opportunity offered him by The Herald, but now that the Star-News, which enjoys very intimate relations with the state auditor, has taken up the matter, Mr. Dunn's position will no doubt be accurately presented to the people of Minnesota.

There are two stories which The Herald said have obtained wide circulation. One is that Mr. Dunn has issued a lease to private parties to the portion of section 39 which the state is now claiming under the second land act. The second rumor is that Auditor Dunn has been given an interest in the lease so granted. The Star-News says "it does not know whether any lease has been issued to anybody on this particular piece of land," but as to the second rumor it says: "It will go farther and say authoritatively that the insinuation is absolutely false, and that Auditor Dunn has no interest, directly or

indirectly, in the remotest degree, in the lease under discussion, or any other for that matter."

The Herald is pleased to be thus assured by one who speaks presumably by Mr. Dunn's authority that the state auditor has no direct or indirect interest "in the lease under discussion," or any other lease. Mr. Dunn's many friends in Duluth were bound to believe the rumor in this connection and they will be glad to have this assurance that Mr. Dunn is not interested in state leases which, as land commissioner, he issues. But if the Star-News is in a position to authoritatively deny that Mr. Dunn has any interest "in the lease under discussion," how is it possible that it does not know whether any lease has been issued on this piece of land? It is difficult indeed to reconcile its two statements. It says in one place that Mr. Dunn has no interest in "the lease under discussion," from which it can be fairly inferred that a lease has been issued, yet it says in another place it does not know whether any lease has been issued. The only conclusion that can be reached is that a lease has been issued, as rumor says, and that an attempt is being made by Mr. Dunn to conceal the fact.

Indeed, the Minneapolis Times asserts that a lease of valuable land, which the state claims, but has not yet acquired and may never acquire, was issued last November, and that the holders of the lease are Alvah Eastman, Charles H. Bennet, Maggie Bennet and Patrick Moehan. Mr. Eastman is the editor of the St. Cloud Journal-Press and is one of Auditor Dunn's closest friends. They served in the legislature together and were almost inseparable, and since that time they have been very intimate. The identity of the Bennets is not known, but it is rumored they are Wisconsin people. Mr. Moehan is the claimant in the celebrated Thief River Falls case, and his attorney in that case was J. C. Judge, of Minneapolis, who, singular to relate, has been retained by Mr. Dunn to prosecute the state's claim to section 29, of course at heavy expense to the state, when the attorney general could have conducted the case and is doing so official when the state auditor should have consulted regarding the matter.

TO SECURE IMMIGRATION.

The citizens of Duluth generally should take an active interest in the Sixth district immigration convention, which opened at the city hall this afternoon and will continue for two days. A very interesting program has been arranged, including addresses by well-known speakers on subjects pertinent to the objects of the convention.

The settlement and development of Northern Minnesota is of the utmost importance to Duluth, and our people should not neglect any means to secure this result. There is no doubt that the advocates of colonization will present plans that will prove effective in attracting immigrants to this rich section of the country, and the people of Duluth should show by their presence at the convention that they appreciate the public spirit which actuates these men in devoting their time and energies to the subject.

Every settler who makes his home within the great territory which Duluth is the gateway to will contribute in some degree to the upbuilding of this city, and for selfish reasons alone Duluth should take a deep interest in the movement. Chicago's great growth followed the filling up of the vacant lands of Illinois and adjoining states with sturdy immigrants who caused the soil to give up the wealth that is in it and sent the products through that city.

Chicago grew rapidly in both trade and population in consequence, and is today the second city of America. This progress can be duplicated at Duluth, and it will be if we adopt plans and measures that will result in settling and developing the rich agricultural lands of Northern Minnesota and the Dakotas. Let us then give aid and comfort to the men to whose enterprise and public spirit the holding of this convention is responsible.

The convention will be in session to-night and all day tomorrow. Let your interest in the work be manifested by your presence at least.

SENATORIAL FUNERALS.

Senator Puffer, of Kansas, who has been ridiculed and abused by both Republican and Democratic newspapers all over the country because he is a Populist and sticks steadfastly to his party's principles, is now entering the strange sensation of grieving very general praise. The senator has introduced a bill upon which there is no division of sentiment among the people and the newspapers, although it may meet with some opposition in the senate, because it attacks one of the old and long established practices of that body. The Kansas senator wants to abolish the costly congressional funerals, and the measure which he has introduced is entitled: "A bill to provide for the proper disposition of the remains of senators and representatives who die while congress is in session."

Senator Puffer has been making an investigation into the cost of these funerals at the public expense and has discovered some interesting facts, one being that dead senators who were men of wealth have been "disposed of" more ostentatiously and at greater expense to the government than the poor and obscure. Another fact is that the last thirteen senatorial funerals have cost more than all that preceded them. The investigation shows that the first senatorial funeral cost the government \$449. It was in the early days of the republic, when the servants of the people had not grown accustomed to dipping into the public treasury. The latest affair of the kind cost \$21,322. These are days when a senatorial funeral has come to mean not only a stoppage of public business while congress goes through the mummery of a meaningless ceremony, but also a tour in palace cars, across the continent in some cases, and huge hotel

and wine bills for a deputation of shameless junketers.

The total number of senators "disposed of" at government expense has been 107, and the average cost of "disposing" them has been \$4545, which Senator Puffer declares to be more than the value of an average American farm. This is a comparison, says the Milwaukee Evening Wisconsin, which recalls the memorable retort of that great French minister of finance, the father of Madame de Stael, who when a lady of the court demanded a pension and exclaimed: "What is 2000 livres to the king?" replied, "Three thousand lives is the taxation of a village."

The house of representatives has been equally extravagant in expenditures upon the funerals of its members who have died. It is an abuse that should be promptly abolished, and if Senator Puffer succeeds in securing the passage of his bill he will be entitled to the thanks of the people who are being robbed in this way.

QUITE A DIFFERENCE.

By an annoying typographical error yesterday, The Herald was made to say in reference to the St. Paul & Duluth's generous action in transporting free water for the city from Spirit Lake that "if the city had to pay the regular tariff for this service, the charges would reach fully \$5 a day." The Herald desired to say that the charges would reach fully \$20 a day, which is quite a difference and no doubt many readers judged from the context that such was the case.

The Kansas City Star expresses the belief that the women of the land will rise up and call blessed the members of the New York board of health who have set out to banish the evil of expectorating in public places. It is recommended that warnings against this practice shall be posted at the stations and on the platforms of elevated railways, in public halls, federal buildings, etc. This action is taken on the ground of public health. It being claimed that contagious diseases may be disseminated by this means. But, the question of hygiene aside, the proposed restriction would be justified in the interest of common decency and for the protection of women who suffer in the calculable annoyance from this filthy practice in every city in the Union.

A general European war in these closing days of the nineteenth century, says the Boston Globe, would be so costly, would present such destruction and work such awful havoc with the resources and hopes of civilization, that the mere thought of it may well give a good impetus to every man and woman, and every child, to strive for a better world, a world of peace and harmony, a world in which the struggle of life would bring with it but the semblance of glory. It would prove dearly bought, indeed, but it could prove only less disastrous than defeat.

The St. Louis Star (Rep.) says: "The statement is now made that the American Bimetallic league will hold its convention here at the same time as the Populists. That the currency question is the all-absorbing question at the present time every one admits. Any action taken on the matter, especially by as large an organization as the Bimetallic league, is bound to attract attention throughout the world. It will bring a large number of prominent men together, and will, in all respects, be a notable gathering. How important it may be in results time alone will tell."

M. F. Ingalls, the president of the "Big Four" railroad, is being boomed as a candidate for the Democratic nomination for president. Mr. Ingalls may be a good man, but the "granger vote" will be taken into consideration by the convention, as it was considered by the Republican convention, when Chauncey Deane's name was before it. Even the persuasive eloquence of the Hon. G. C. Hartley, of Duluth, could not induce the convention to nominate Dr. Dewey, and how can Mr. Ingalls hope to succeed?

The other day some twenty-five prominent business men of Chicago were asked if they would accept nominations to the board of aldermen, and all but two replied that they would not. Of course they reserve the privilege of growing at city politics all the same. The great trouble with our municipal governments is that the men who possess the most qualifications for municipal business refuse to devote a portion of their time for the benefit of themselves and their fellow citizens.

In Toronto, where the street railroad system is operated by a company that has a long lease of the city, the franchise is given. About four years ago the city bought all the street car lines, paying for them \$1,455,788. After operating the lines for several months, it leased them to a company which placed that time has paid into the city treasury \$124,695 for the privilege it enjoys. The company makes money, so does the city, and the profit of both is consistent with free franchises.

The new captain general of Cuba is expected to introduce the savage methods of Alva, which will be bad for the Cuban patriots, but good for their cause, says the Louisville Times. The blood of the martyrs is the seed of the church. The people of these United States will not forever fold their arms in obedience to the obligations of international courtesy and permit Spanish despotism annihilate both the body and the spirit of liberty in the gem of the American seas.

The Chicago Inter-Ocean says: "A water company at Duluth has been sued for \$5000, the estimated value of the

life of a young man who died from typhoid fever, because of the impure water furnished by said water company. If such a suit should hold, what a shaking it would be through-out the land. The courts would have small chance to attend to any other business."

The St. Paul Dispatch says: "The water was not the only thing in Duluth that the visiting curiers did not like." If the Dispatch refers to the few St. Paul curiers who went home and roared because they were not wined and dined during their stay here, it is probably correct. But no one in Duluth ever imagined that they were anxious to drink water, as long as the supply of other liquids held out.

While all Chicago is a Two-Million club, the Half-Million club, of San Francisco, has disbanded. It tried to count 500,000 inhabitants in San Francisco, but as they were not there, could not count it. It should try again, but before beginning to count it should first count the crowd, letting him know beforehand what population it is desired to show up.

Mr. Towne's wisdom in voting on the house organization against the combine that won was shown yesterday when he secured the insertion in the urgent deficiency bill of an item of \$500 for Red Lake pine appraisers, by the courtesy of Chairman Cannon with whom he voted for house officials.

The Superior papers are inclined to be humorous over the supplying of Duluth's citizens with spring water by the water car system. They consider this unnecessary in Superior; instead, they prefer to drink the dirty water from the city tap, but they supposed it must be, which shows the difference in tastes.

Some Eastern papers are now urging that the United States should open negotiations with Spain for the purchase of the island of Cuba. It is believed that Spain would sell at a reasonable price.

Some papers are referring to the Boston boom as a "punching bag." It may be well to remind them that it requires a little experience to punch the bag without getting your own head punched.

The London press intimates that the Emperor William's strange actions at times are due to excessive dining. Probably they mean nothing, but consider the other word more polite.

Did you register yesterday? If not, be sure to register next Saturday, or you cannot vote at the approaching municipal election. All must register anew this year.

Meanwhile what is the health officer doing to carry out his declaration several months ago that he was going to abate the smoke nuisance in Duluth?

The New York World is attacking Senator Davis regarding his Monroe doctrine and his attitude toward the Cuban's belligerency should not be longer delayed.

Do not forget that Saturday next will be the last day of registration. Register or you will lose your vote.

Rev. William Rogers, tutor of the earl of Rosslyn, is dead. The earl died a politically several months ago.

War is reported among the Missouri women suffragists. Why not settle it by arbitration?

The Democratic convention in Chicago next July promises to be a hot gathering.

FORAKER'S BRAVE WORDS.
Marquette Journal: "I believe the man having the shanties of the Bimetallic league, is bound to attract attention throughout the world. It will bring a large number of prominent men together, and will, in all respects, be a notable gathering. How important it may be in results time alone will tell."

Harold de Montmorency was tired of life. As he stood in his 7 by 8 hall bed room after his day's work in the dry goods store where he had measured out dress goods from early morning till late at night, he thought to himself that life was not worth living. His erstwhile employer, the Hon. E. W. Washburn, who worked in the first department of the same store, had cruelly jilted him that day, the day he had been promised a raise in salary. He had been promised a raise in salary, but he had been jilted. He had been promised a raise in salary, but he had been jilted. He had been promised a raise in salary, but he had been jilted.

A WONDERFUL COUNTRY.
Port Francis News: The Rialty river is truly a phenomenon. When the mercury is 50 below zero, or thereabouts, of course it freezes over. But no sooner does the mercury begin to crawl up than the ice breaks up as if by magic. At no time this winter has the ice been strong enough for a man to cross on, and at this writing the river is clear of ice from shore to shore in front of this place. Verily this is a wonderful country.

A FORTUNATE CIRCUMSTANCE.
St. Paul Dispatch: Neither Heatwave nor blizzard will be able to get on that Monroe debate in the senate. It is fortunate, as they might precipitate war.

THE DULUTH RESOLUTION.
Chicago Inter-Ocean: There is a new feature in this definition of the Monroe doctrine. It goes no farther than the United States has always gone in the maintenance of the doctrine, unless it is during the short period that John M. Clayton, of Delaware, a fit prototype of Senator Gray, was secretary of state. Great Britain is now a block in the way of its aggressive policy. France may consistently oppose it, for twice it has threatened that it would stultify Clayton's doctrine. The London press talks as if the senators trying to win favor with the Irish are popular than as it is now. As well say that Emperor William had the Irish in mind when he sent that cablegram to President Kruger.

CHICAGO'S NEW PLAY.
Minneapolis Journal: Chicago has a new play in which Topsy says, "Gladie, dat las ich geboren warr, bin gerade so gewachsen, und a German dachschwand chies das poor woman over der lee wille a German angel comes down after little Eva."

THE ROUNDER.

The wife of a prominent physician is telling a good one on herself. During the winter of last year, she was commonly known as getting a few dollars cheaply, and she made an engagement with her sister to meet at Howard & Haynes, that afternoon she called down town and dropped into the store. She thought the price "rather stiff" for a new dress, so she went out. At the door she met her sister.

"Why have you been?" was the common exclamation. "I have been waiting" at Howard & Haynes for nearly an hour," said the sister with some acidity. "So have I," returned the physician's wife. "Why?" was the common exclamation again.

She looked up at the sign over the door. It was not Howard & Haynes, and she was disappointed. She was a bargain, had paid full price for her dress at one of the other stores.

Harold de Montmorency was tired of life. As he stood in his 7 by 8 hall bed room after his day's work in the dry goods store where he had measured out dress goods from early morning till late at night, he thought to himself that life was not worth living. His erstwhile employer, the Hon. E. W. Washburn, who worked in the first department of the same store, had cruelly jilted him that day, the day he had been promised a raise in salary. Sixth District Immigration
Convention Began Its
Session Today.

Mayor Lewis Welcomed the
Visiting Delegates to
the City.

Dr. Kelsey's Address on
"Immigration to the
Sixth District."

The delegates of the Sixth Immigration district convened this afternoon in the council chamber and were called to order by D. A. Petro, president of the St. Louis county immigration board, at 2:15 o'clock. The representative citizens of Duluth were present to welcome the visiting delegates and everyone was adorned with a white badge and a smiling countenance. Rev. Dr. Salter made a short, but impressive prayer for the success of the convention. The delegates were welcomed on behalf of the city by Mayor Lewis, who spoke briefly of the agricultural possibilities of Northern Minnesota, and expressed his sympathy with the convention. G. A. Leland nominated Dr. C. A. Kelsey as chairman of the convention, and E. H. France was proposed as secretary by G. R. Laybourne. Both were elected.

DR. KELSEY'S ADDRESS.
Dr. C. A. Kelsey, member of the state board of the Sixth district, followed, and he said in substance: "This convention is of more importance than a political gathering, for while the latter helps some for a time, immigration helps all and its benefits gather in years. Our district is large in area, rich in mineral deposits and has a soil unsurpassed in fertility by any locality in the Union. Therefore the work of settling it is worthy our best efforts. Our district comprises 34,829 square miles, almost half the state, and larger than Vermont, Connecticut, Rhode Island, Massachusetts, New Jersey and Delaware put together, and it will give 200,000 to 300,000 acres each. "The soil of the district is adapted to many different products, all of which can be raised abundantly and in superior quality. For instance, which one of our good soils lack, is assured from the large lake area of the region. When the Creator formed the vast fertile Northwest, which is tributary to this natural harbor, ambitions were formed which destined to become the largest in this country and the rival of any city in another country—Duluth. The opportunity of building up this region is before

us. Will we do it? The earnest expression is your faces moves me to answer with emphasis, 'Yes.' "We have the advantages to offer and the seeds to do the work. We have to do with the croaker, give him no quarter. Let him be treated as the dog and a development that he is. He is a visitor and stranger and the advantage of our region. The idea of holding a Sixth district fair is a good one. Let a committee be appointed at this time to form a permanent location. In addition let the twenty counties in this district contribute \$100 each and build a structure on the state fair grounds with a department for each county. Thus we will show the southern part of the state that it does not contain all that is good. We recognize in this a noble part of the world, and we realize that there is so large a part of the state north of St. Paul which the present immigration movement will populate and develop." Bishop McDevick, who was to have spoken on "Immigration and Colonization," was unavoidably compelled to be out of the city and his place on the program was taken by Prof. Hays, of the state experimental station. Following are the out-of-town delegates in attendance: W. Porter, J. M. Markham, of Atkin; C. C. McFarthy, D. W. Dean, of Grand Rapids; John N. Nevers, J. M. Elder, of Bainbridge; A. S. Bonnard, D. W. Dorman, W. E. Neal, A. D. Davidson, of Grand Rapids; Peter Phalon, of Cloquet; Dr. C. A. Kelsey, of Brook Park; Fred Stearns, J. N. Mauston, of Atkin; John Dwan, of Two Harbors; E. V. Smalley, of St. Paul; W. B. Grant, of Sandstone.

Our present prices on crockery, china, glassware, etc., are lower than those of our competitors after they have taken off just cash. We have something better still to offer you. Watch for our advertisement in Friday and Saturday's papers.

40 YEARS THE STANDARD.

MAYOR LIKES HIM.

He Thinks Chief Black's Salary
None Too High.

"I understand the reformation committee is talking about making a reduction in Chief Black's salary," said Mayor Lewis this morning. "Now in regard to that matter I think the chief is worth every cent he gets. At the very first time he handled on his arrival, the one at the Metropolitan block, he saved five times the amount of his salary. The insurance companies could well afford to pay him \$500 a year. Duluth has at present an efficient, thoroughly organized fire department, but to replace Chief Black with a cheaper man would be the surest way of running the department into the ground."

STREET CARS EVERY 5 MINUTES.

A Happy Denouement.
There was a happy denouement to the wedding which was interrupted yesterday at the Polish Catholic church. Josef Sadomka, the prospective groom, was arrested on a charge of illegal marriage performed by Katerina Pasoska, of Sturgeon Lake. Assistant County Attorney McPherson fixed up a settlement for \$100 cash and Josef hustled out to borrow the money. He was unsuccessful, but the bride-to-be, Miss Annie Chaponski, raised the money for the other girl and the happy couple were married in the afternoon as per agreement by Rev. Father Straka.

Pumped it Out.
City Engineer Patton and Alderman Harwood, of the investigating committee, accompanied by Health Officer Routh and Alderman Patterson, visited the Lakeside pump house this morning for the purpose of having the intake well pumped out in order to make sure that it is thoroughly cleaned. The pipe was also subjected to tests. Everything was found to be thoroughly cleaned.

Will Continue the Work.
The citizens' committee met yesterday afternoon and after discussing the situation and the character of the campaign to be made, adopted a resolution to the effect that the committee will keep up its work and render the candidates recommended by it all assistance that can be given.

WILL MANUFACTURE IT.
J. S. Leary, of this city, who has recently perfected a power-saving device for bicycles, left today for Chicago to begin active work upon his invention. He has received a flattering offer of \$100,000 for his patent, but he is backed by capital and will begin manufacturing immediately.

One Minute Cough Cure is a popular remedy for cough, safe for children and adults. S. F. Boyce.
We retail crockery, china, glassware, etc., at wholesale prices, but we have something better still in store for our customers. Our reputation for low prices and fair dealing is established and we beat half-price sales at our present prices.

D. A. Reed Suggested.
Mayor Lewis has not yet acted upon W. B. Welles' resignation. The name of D. A. Reed has been suggested to the mayor for the position. Mr. Reed was formerly city engineer and is thoroughly conversant with the work of the office. He has always taken a great interest in improvement work and has investigated it in other cities to considerable extent. He would undoubtedly make a valuable member of the board.

NEW POSTAL BILL.
Public Documents and Postal Supplies to Go By Freight.

Washington, Jan. 22.—Representative Loom, of the house committee on post offices and post roads, has prepared a bill to carry out the recommendations of ex-Postmaster General Bissell and Postmaster General Wilson relative to second-class mail matter. The committee will give hearings to publishers and other interested parties.
Mr. Loom says that a cent letter postage cannot be made while the second-class business costs the government so much more than the revenue from it. He intends to introduce another bill for the transmission by freight of postoffice supplies and for public documents.

HARRISON IN WASHINGTON.
New York, Jan. 22.—Gen. Harrison left the city for Washington at midnight. The general said he did not expect to return until after Lent, going directly from Washington to Indian affairs at the conclusion of the argument in the Wright litigation case.

RUSSIAN NAVAL BUDGET.
London, Jan. 22.—A dispatch to the Times from St. Petersburg says that the czar has confirmed the budget. The navy for the next seven years is to have a total of 20,000,000 roubles, 2,000,000 roubles of which is for the current year, increasing half a million roubles annually. Should foreign navies grow faster it is

ALLIANCE

Offensive and Defensive Alliance Between Turkey and Russia Concluded.

Agreement Really Makes Turkey a Vassal of the Russian Empire.

Will Open the Dardanelles to the Passage of Russian Warships.

London, Jan. 22.—A dispatch to the Pall Mall Gazette from Constantinople dated yesterday says, an offensive and defensive alliance has been concluded between Russia and Turkey. The dispatch adds that a treaty was signed at Constantinople and specifications were exchanged at St. Petersburg between Araf Pasha and the czar. The basis of the treaty is declared to be on the lines of the agreement of 1829, by which Turkey promised, in the event of Russia going to war, to close the Dardanelles to the warships of all nations. The Pall Mall Gazette correspondent adds that the treaty must soon be abandoned owing to the refusal of the powers to recognize it. He says the French ambassador, M. Cambon, conferred with the czar yesterday and that it is probable that France will be included in the new arrangement.

Commenting on the foregoing the Gazette says: "We regard the news as true. The result of the treaty is that the Dardanelles is now the southern outpost of Russia, and that Turkey is Russia's ally. We presume the British government will protest against the treaty for all it is worth. The information is plainly of the very greatest importance. The first intimation was received four days ago, but we withheld it until the arrival of strong confirmation which we received this morning. This brings Russia into the Mediterranean with a vengeance, and may necessitate the strengthening of our fleet in those waters."

"Politically the effect will be great. The treaty means that Turkey has realized her own imperial destiny and has decided to throw herself for safety into the arms of Russia. She is now Russia's vassal, and Russia is entitled to dispatch troops to any part of the Sultan's dominions whenever there is the slightest breach of order and when there is no other remedy." "We presume the arrangement will give the keenest satisfaction to the Anglo-American section of our people. With them lies the chief blame for the complete alienation of Turkey, though it must be owned that it has been sedulously fostered for the long term of the week. The official information regarding the statement telegraphed to the Pall Mall Gazette from Constantinople, dated yesterday, that a treaty had been concluded between Russia and Turkey, has been confirmed by a dispatch received from St. Petersburg."

DAVIS' RESOLUTION.

President Cleveland Expresses Disapproval of the Measure.

New York, Jan. 22.—A special to the World from Washington says: President Cleveland has authorized Senator Smith, of New Jersey, to make public his opinion of the Davis resolution reported by the senate committee on the subject of the resolution. The resolution is "that the Davis resolution is a mischievous, impertinent and unimportant measure, and that the policy adopted by the senate committee strikes at the heart of the principle of arbitration."

Senator Smith has prepared a resolution declaring that the United States does not intend to establish a precedent in South America nor to become responsible for the conduct of other American nations. He discussed the subject of the resolution with the cabinet yesterday. Secretary Olney has privately expressed his disapproval of the action of the senate committee.

AMERICAN SYMPATHY.

Extended to the Queen and Her Response.

London, Jan. 22.—At a meeting of Americans today the following resolutions were adopted and telegraphed to Queen Victoria: "At an assemblage of Americans it was resolved to communicate to your most gracious majesty that they joined in the deepest sympathies of your majesty's subjects in respect to his royal highness Prince Henry of Battenberg's death."

(Signed) Charles Albert Gillingham.

To this message the following answer was received: "The queen desires to sincerely thank you and your fellow countrymen for the kind sympathy which her majesty much appreciates."

A YOUNG POISONER.

Altoona, Pa., Jan. 22.—Minnie Swanger, aged 12 years, is under arrest, charged with poisoning a family. Tuesday William McGregor, Mrs. Mary McGregor, his mother, Carrie Still, his daughter, and Mrs. John Still, his sister, were taken sick while eating dinner at McGregor's house. William McGregor, who was found on the floor, died in a few minutes. The others will probably recover. The child is being kept rough on rats in the coffee. She had been reprimanded for an act of dishonesty. She brought the poison Monday.

OCEAN STEAMSHIPS.

London—Arrived: Richmond Hill, New York.

MERRIAM FOR DAVIS.

Will Not Be a National Convention Delegate.

St. Paul, Jan. 22.—Gov. Merriam will leave this evening for his annual visit to the South, and he will not be a candidate as delegate to the national Republican convention, either from the state at large or from the district. This much he told a reporter when the latter called upon him for information this morning. "Yes, sir," said he, "I go South this evening on business. I will not be a candidate either from the state or the district to the national convention, and the only interest I have in common with every Republican of the state, or for that matter of the West, to elect a representative delegation is sent to the convention, a delegation that will work earnestly there to secure the presidential nomination for our esteemed and honored fellow citizen, Senator Cushman K. Davis. I believe he will be accorded unanimous support. The Republicans of the state, and I think he will make a showing in the convention of which the state may well feel proud."

"I don't desire to go as a delegate to the convention, because I have been repeatedly named by my party and I dislike being styled what may be termed a personal candidate."

He was positive in his statement that he would not be a candidate, and the anti-Merriam faction of the party particularly, and scarcely less to the Republicans of the state, for it seemed to be taken for granted that he would be one of the delegation.

NATIONAL BANKS.

Statement of Their Condition During Last December.

Washington, Jan. 22.—The abstract from the reports made to the controller of the currency by the 576 national banks in the United States showing their condition on Dec. 12, 1895, shows loans and discounts amounting to \$2,629,692,922 against \$2,629,408,000 on Sept. 28, 1895, the date of the last report. The gold coin held by the national banks on Dec. 12 amounted to \$11,832,424, compared with \$22,344,180 in September.

The total specie on hand on Dec. 12 was \$29,722,416, as compared with \$23,721,000 on Sept. 28. The legal tender notes on hand on Dec. 12 amounted to \$29,722,416, as compared with \$23,721,000 on Sept. 28. The United States certificates of aggregated \$31,440,000 as against \$24,920,000 at the time of the September report. The silver treasury certificates on hand on Dec. 12 amounted to \$1,726,552, compared with \$1,726,552 on Sept. 28.

NORTHWESTERN MILLING.

Output Was Small But Exceeded Previous Years.

Minneapolis, Minn., Jan. 22.—The Northwestern Miller gives the following summary of the week's milling news: The flour output at Minneapolis last week was 211,000 barrels against 207,275 barrels for the same week last year. The output last week was the smallest since August, yet it was double that of 1895 and 1894.

Flour output quiet last week. In sympathy with wheat, prices of patent are a good deal stronger. Export of wheat was 10,000 barrels last week. The week before, 13,000 in 1895, and 16,000 in 1894. Feed is steady, but quiet, the asking of slight advance by millers checking business.

A REVENUE RAID.

Illicit Distillery Captured With the Proprietors.

Brooklyn, N. Y., Jan. 22.—For some time past the United States authorities have been suspicious that the building at No. 109 Meeker avenue was being used for the purpose of running an illicit distillery. A raid was made last evening. The plant was found in full operation and the surprise was complete. Five men were found at work and placed under arrest. On the first floor was found a still of eighty gallons capacity, and upon the second floor another holding sixty gallons. There were also found a large quantity of mash, together with a horse and wagon, used for carting the material. The building, however, was seized by the officers.

GOMEZ WHEREABOUTS.

Moving Southward With His Army Divided.

Havana, Jan. 22.—The latest movements reported of Gen. Gomez were that yesterday he was at the plantation of Morales and passed on the road near Chimbarrano, province of Havana, going southward. He does not appear to have camped last night, but divided his force and sent them on the march in several directions. The Spanish troops are closely pursuing the insurgents, and it is stated that they will be unable to escape. It is a fact that Gomez' position is looked upon here as being rather critical.

It is said that Gen. Pando will return to the province of Santiago de Cuba instead of taking command of the Spanish forces in the province of Pinar del Rio, as he hoped to do. Gen. Pando was accorded a great reception at the palace today. Local military and civil authorities were present, and officers of the Spanish army, Philip Steinh and Stosch were among those in attendance.

IRON MARKET FLUCTUATIONS.

Pittsburgh, Pa., Jan. 22.—From age to age says: "The selling of Bessemer pig during the past week at advanced prices reaching \$12.20 and \$12.30, has furnished, although the valley furnaces, too, participated in the movement, finally making the market for this kind of iron the only notable thing in that sort. Southern furnaces are making further reductions. Copper has displayed further weakness, lake selling down to 9 1/2 cents."

ARSENAL

Government Officials Considering Sites For Locating a New Armory.

Duluth, Minneapolis and St. Paul Are Three Suggested Minnesota Places.

Chicago and Milwaukee Are the Only Other Cities Mentioned.

Washington, Jan. 22.—Within one year from Dec. 1 last, the Minnesota National Guard and the Sons of Veterans of that state, which form a part of the militia, will be armed with Springfield breech-loading rifles, caliber 30, Gen. Flagler, chief of ordnance supplies, has reported in favor of this important move, and Secretary of War Lamont has given his official approval. The policy, of Connecticut, is pushing the passage of a bill which provides that the Springfield rifles be sent to governors of all states where there is a regularly organized militia and that the old style of arms be sent to the ordnance department of the army. This is but one of the important steps that is being quietly taken by the government to strengthen its fighting reserve. Several large contracts have been recently completed for the construction of artillery equipment and there is at present a night force at work in the Washington gun factory. The necessity of another manufactory for small arms is becoming apparent, and there is a question as to where such a factory established in the Northwest. In the event of a war with Great Britain there would, of course, be a government arsenal established somewhere in the Northwest. The line between Minnesota and the Canadian border. It is understood that Chicago, Milwaukee, St. Paul, Minneapolis and Duluth are being considered by the officials of the war department with a view to the respective advantages of each. The representatives of all those cities know what is going on, yet each professes to have no voice in the other when the matter is mentioned.

A ST. PAUL SUICIDE.

Unknown Woman Jumps From the High Bridge.

St. Paul, Jan. 22.—While F. Breen was walking along the upper flats to-day about 12:20 he came upon the dead body of a woman lying in a pool of blood. The place where the body lay was directly under the down-river edge of the high bridge at a point 300 feet from the Smith avenue crossing. The woman was apparently about 24 years of age, lay on her right side, her head resting in a large pool of congealed blood. It was evidently a suicide by jumping from the bridge. Her left arm was broken. There was nothing found on the woman's person to indicate her identity.

It is the opinion of the coroner that the woman must have committed the rash act some time after dark last evening.

AMERICAN MANUFACTURERS.

Chicago, Jan. 22.—This was the third and last day's session of the American Manufacturer's association. Pliny Jewell, chairman of the nominating committee, announced that the committee had nominated Theodore Search, of Philadelphia, for president. Mr. Search having declined nomination on account of sickness. Mr. Search was then elected unanimously. Albert LaRocca, of St. Paul, Minnesota, and of Chicago, were re-elected treasurer and secretary respectively.

WILLINGTON'S COURSE.

Annapolis, Md., Jan. 22.—Mr. Willington upon being asked as to his course in the United States senate when the senate succeeded Senator Gilman, said: "I shall be the senator for the whole state of Maryland and not for the eastern shore. I am a Republican, of course, with firm convictions on national questions, a protectionist naturally, and a sound money man."

A POSSIBLE APPOINTMENT.

St. Paul, Jan. 22.—Labor Commissioner Powers will probably announce Saturday the appointment of J. N. Jones' successor as factory inspector for the Northern district of Minnesota. There are several candidates in the field. From all accounts J. McCalley, of St. Cloud, seems most likely to get the place.

CLEVELAND'S WESTERN TRIP.

San Francisco, Jan. 22.—A local paper says that President Cleveland has accepted an invitation from Attorney W. W. Folio to spend part of his vacation next summer on the Pacific coast.

UTAH'S FIRST SENATORS.

Salt Lake, Utah, Jan. 22.—The legislature in joint session yesterday elected C. Cannon and Arthur Benson to the United States senate. They will leave for Washington today.

IS A FRENCH POSSESSION.

Paris, Jan. 22.—It was announced today that by the terms of the treaty of Jan. 18, the island of Madagascar is declared to be a French possession.

MAKALIE NOT CAPTURED.

Rome, Jan. 22.—The government denies the story circulated in Paris to the effect that Makalie has been captured.

A DEAD SHIPBUILDER.

Berlin, Jan. 22.—The death is announced of Friedrich Schuchow, a well-known ship builder of Elbing.

C. M. HENDERSON DEAD.

Chicago, Jan. 22.—Charles M. Henderson, a well-known banker of this city, president of the C. M. Henderson company, died today of brain trouble. He was 62 years old.

HALF PRICE—All skates go at same big reduction—50 off.

PANTON & WATSON.

NEW YORK STOCKS.

Very Little Trading Was Indulged in.

New York, Jan. 22.—The stock market opened moderately active and irregular, changes being merely fractional. General Electric bore the brunt of the selling pressure and yielded 3/4 per cent. Sugar sold to bid, against 10 1/2c, the initial price. General market was quiet and steady at 11 o'clock with quotations slightly below yesterday's closing.

Speculation in stocks came almost to a standstill during the second hour. Traders were inclined to hold off pending further developments as to the effect of the bond issue on the money market. The result of the meeting of the anthracite coal operators was also awaited with considerable interest. There were few changes of consequence in values. Manhattan touched 90 1/2 and Baltimore & Ohio brought 40.

PRINCE HENRY'S FUNERAL.

London, Jan. 22.—A dispatch from Osborn, Isle of Wight, says: Queen Victoria and Princess Beatrice passed a bad night, and their health is affected by the shock experienced at the news of Prince Henry's death. The remains will be interred at Windsor, and a public funeral will be held at the burial place of the duke of Albany, Queen Victoria's youngest son, who died in 1894.

HARRISON WILL NOT TALK.

Washington, Jan. 22.—Ex-President Harrison arrived here today accompanied by Mrs. Tibbess and took quarters at the Arlington. He was called upon by many prominent men. When seen by an Associated Press representative, he said he would follow an invariable rule of giving no expression on public questions. Gen. Harrison will call on the president during the day to pay his respects. This visit to Washington is his first since he retired from the presidency.

DECEASED BY BRAZIL.

London, Jan. 22.—The Brazilian legation has made public the following dispatch received from the Brazilian government: "The Brazilian government denies officially the report spread in Europe during the past few days by telegrams from Rio de Janeiro and New York. The relations of the Brazilian government with the minister of Great Britain are of a friendly character and the claims are in course of settlement. The cruiser Benjamin Constant has no connection with the Isle of Trinidad."

AGROUND ON THE CLYDE.

Glasgow, Jan. 22.—The steamer Greician from New York Jan. 19, and arrived in Glasgow, was driven ashore by a heavy fog. Two tugs have gone to her assistance.

BLIZZARD AT DES MOINES.

Des Moines, Iowa, Jan. 22.—A blizzard prevails here. Street car service is interrupted and other business will be severely crippled if it continues.

Custance will play the accompaniment. Among the reciters to recite will figure the following names: Mayor Lewis, Rev. E. M. Noyes, Rev. C. H. Patton, Dr. A. J. Gibson, Dr. C. McKim, T. W. Hugo, J. L. Morrison and Simon Clark.

A TRULSEN MEETING
Will be held at Turner hall, opposite the court house, this evening at 8 o'clock and Friday evening at Central hall, Twelfth avenue west and Michigan street.

TRANSFER

Gas and Water Company
Passed Into the Hands of
the Hartmans.

Deal Was Consummated Last
Evening and They Have
Taken Charge.

O. C. Hartman is President
and Manager of the New
Organization.

The announcement is made that O. C. and A. W. Hartman and their friends have assumed control of the Duluth Gas and Water company, beginning with this morning. The deal has been under way for some time, and was closed last evening at Superior, after a conference with President Belknap and other representatives of the company. The Belknap and other Eastern holdings passed into the hands of the Hartmans, and as they held a majority of the stock, they held the company.

The announcement of the consummation of this deal was received in the city and among the business men with great surprise. It has always been known that the Hartman company would like to secure control of the gas plant, but it was not suspected that they would want to assume the control of so unpopular an institution as the gas and water company.

It is no exaggeration to say that the business men, city officials and others are inclined to view the deal with suspicion. Some go so far as to intimate that it is simply a case of the leopard changing his spots, and assert that it is a plan to let the Belknap-Craig regime down easy; that the Hartmans will now come in and offer to sell the water plant to the city and have been selected because they have always been able to get most anything they wanted from the city. This carried out would mean the gas plant and they would then have a monopoly of the lighting franchises, including a gas franchise recently granted.

THE HARTMANS' STATEMENT.
The Hartmans, however, claim it is a bona fide sale and that time will prove their good faith. O. C. Hartman this morning took charge of the water company and is today domiciled in the hotel which Billy Craig warned for some years, and in which he has in turn been warned for several weeks. To a Herald reporter the Messrs. Hartman today made the following statement: The absolute control of the majority of the stock of the Duluth Gas and Water company has passed into the hands of O. C. and A. W. Hartman and their friends. At a meeting of the board of directors of the company, held

in West Superior, last evening, a majority of the old board of directors resigned, and O. C. and A. W. Hartman were elected to fill the vacancies, giving them absolute control of the majority of the board of directors of the company and its principal officers. O. C. Hartman is the new president of the company, and has also been appointed manager, and has assumed full control and management of all the affairs of the company.
The new management of the company will be most friendly to the city authorities, and to the people of Duluth, and every effort will be made to remove any dissatisfactions which may exist as to the policy of the company in the past, and also to the character of the water supplied to the citizens. The new officers will assure the city beyond all question that the water supplied by them is pure and wholesome, or will immediately take every step possible to remedy any existing defects, and to supply the city with a sufficient amount of pure water obtainable regardless of expenses to them. If the present water is found not good.
The contract made by the old officers with Capt. Inman for the laying of the new water pipe to the city will be pushed to completion as fast as the work can possibly be done. The water pipe will be extended to such a point in the lake as will secure a supply of water satisfactory to the people and the new apparatus will be put in at the earliest possible day.
The new officers deny most positively that the change of the management of the company is in any way connected with, or part of any plan to make an offer for the sale of the plant to the city of Duluth. They deny that any such offer will be made by them, but on the contrary, assert that the purchase is a purely business proposition for the interest of the people. The new management of the company will be in every way friendly to the city, and the affairs of the company will be so managed as to conciliate the consumers removed in existing concerns.
"No action will be taken by the officers which will serve in any way to hamper the city in its attempts to sell the bonds or in any other matters it may desire to carry out, nor will the purchase of this plant have any effect whatever upon the offer made by A. W. Hartman to purchase \$750,000 of the bonds of the city for the building of the new pump station and intake pipe. A. W. Hartman is willing to carry out the terms of his bid in every respect. Unless the city authorities themselves desire to make some other arrange-

ments for the bonds, in which case he would not insist upon his right and the acceptance of his bid by the present council, but will leave the city authorities absolutely unhampered in that regard. The new management of the company simply requires that they be given an opportunity to prove their good faith and good will towards the people by the actions of the company rather than by any statement made by them or any other person, and simply desire that public opinion as to the effect of the change upon the citizens' interest may be reserved until an opportunity has been had to prove their good intentions."

Death of Mrs. Lane.
Mrs. James S. Lane died last night at 12:30 o'clock, of typhoid fever, at 225 West Third street. Mrs. Lane had been ill for some time, but was recovering, when a hemorrhage set in and caused her illness to take a fatal turn. Her death is particularly sad, because Mr. Lane is also ill with the same disease at Dr. Bowman's hospital. He is recovering. They had been married only a little over two years, and have a child but a few months old. The funeral will take place Saturday, from the cathedral, at 9 o'clock.

Mr. Batchelor's Funeral.
The funeral of A. C. Batchelor, who died yesterday morning, will be held at 2 o'clock tomorrow afternoon at the St. Paul's Episcopal church. Rev. Dr. Ryan will officiate. Mrs. Clayton, sister of Mrs. Batchelor and Mrs. Howard, sister of the deceased, arrived this morning from Chicago to attend the funeral.

Cleaning the Intake.
The work of cleaning out the Lakeside intake pipe was begun yesterday morning, and the tug record was sent out early in the day. The diver went down at the mouth of the pipe and discovered it to be nearly stopped up with sand and silt. It was decided to attach one of the company's wrecking pumps to the intake, where it enters the well, and suck the foreign substances out of the pipe. In the morning the pump well was emptied for examination, and found to be in good condition.

TO CURTAIL THE CUT.

Lumbermen Not Disposed to Increase the Surplus.

The Duluth Lumbermen's association, representing about 300,000,000 feet in Wisconsin, Minnesota and Michigan, met in Duluth & Brower's office last evening. There happens at present to be a surplus of 400,000,000 feet of lumber over that of a year ago and it appears that at the end of the coming season the surplus will be doubled if the present rate is kept up. The Mississippi Valley association has originated a plan to run the mills four days a week instead of six, and thus keep the supply down to the limits of the demand. The representatives of the Mississippi association wanted to know if the Duluth association would join in, as it was essential that at least \$5 per cent of the lumber manufacturers should take part in the movement.
The Duluth association decided to have its president appoint a committee to obtain the views of the manufacturers in this district, and this committee will also act as a delegation to a meeting of committees from various districts to be held soon in Chicago to decide upon the feasibility of the plan.

Pentathlon Contest.
The program for the series of five pentathlon contests open to members of the Y. M. C. A. has been prepared, and the prize contest will be held Tuesday, Jan. 28. The program consists of a standing broad jump, a 50-yard dash, a half mile walk, long dive, and set work for form on the horizontal bars. The walks and runs will be against time, and the preliminary trials will take place at the gymnasium tonight, when it will be to the interest of all contestants to be on hand. The events are twenty-five in number, and the three prizes go to the three men making the highest aggregate scores.

Will Be Worked.
It is said that the difficulties between the feeholders and the lessees of the Chisholm mine have been allayed, and it is probably that the property will be worked once more. The litigation which has tangled it up for some time will be discontinued. The Minnesota Ore company will operate the south draw fords, and explorations with that end in view will be commenced soon.

Is it not—

And most enterprising newspaper
published in Duluth?

By the company he keeps. If you see him speeding suburbanward or toward his city home with a copy of *The Evening Herald* outspread before him you involuntarily size him up as a man of discernment, of good judgment, of culture and of some means.

Why? For the same reason that you buy a good suit of clothes. It is the better economy.

The Evening Herald spends double the money to print a high-class newspaper than does any other paper in the city. That is why it is so valuable to the business man.

Then its tone is so pure that it is always a welcome visitor in the best homes. That is why merchants pronounce it

Board of Trade men and financial houses have learned to rely upon it because its columns are to be trusted.

It is an especial favorite. It "gets there" twelve hours ahead of the morning paper and has told the story of the day—complete in every particular—long before it arrives.

Is a delight. Containing, in addition to all the news, a resume of the musical, social, dramatic and literary gossip of the week that will always be found fresh and entertaining.

Try It!
Ten cents a week will buy it.

GOMEZ

Rumor That the Cuban Insurgent Chief is Seriously Ill.

Advanced Stage of Consumption and Fever Are His Troubles.

Doctors Say He Can Only Live About Two Months Longer.

Havana, Jan. 24.—(Copyright 1896, by the Associated Press.)—For some time past reports have been in circulation here concerning the physical condition of Gen. Gomez, commander-in-chief of the insurgent forces. One story has asserted that he was suffering from wounds and that he was seriously ill with fever. It appears from information derived from trustworthy sources that neither of these reports are correct, but it is positively asserted that the insurgent chief is a very sick man. It is stated, upon the authority quoted, that doctors in attendance upon Gen. Gomez recently held a consultation and diagnosed his case as being an advanced stage of consumption, complicated with fever. It is further stated that the physicians have come to the conclusion that Gomez can only live about two months longer. These statements have caused considerable anxiety among the insurgents and their friends, as even though his condition may be exaggerated to some degree, it is believed the main facts are correctly stated.

HE STOLE \$160,000.

And Was Elected to the Ohio Senate.

Cincinnati, Jan. 24.—A strong story is made public today of the loss of \$160,000 of a special fund deposited by President Charles Fleischmann, of the Market National bank of this city, in the vault, in care of Charles S. W. Ramp, to be kept as a special reserve during the coming summer of 1896, and only to be used in case of absolute necessity by the bank, during Mr. Fleischmann's absence on his summer vacation. The story is that not long afterward Ramp went to Fleischmann's attorneys and made the astonishing confession that he had spent the entire sum in gambling in stocks, racing, etc. Ramp, to save the credit of the bank, kept the story quiet, and arranged to have Ramp elected to the state senate as an excuse for severing his connection with the bank. What arrangements, if any, were made to pay the money he did not know, but Fleischmann says Ramp does not owe him a dollar.

BALTIMORE & OHIO.

John K. Cowen Elected President of the Road.

Baltimore, Jan. 24.—John K. Cowen, general counsel for the Baltimore & Ohio Railroad company, and representative in congress from the Fourth Maryland district, was today elected president of the Baltimore & Ohio, to succeed Charles F. Mayer, who resigned in November last. He was elected as a compromise. The meeting at which Mr. Cowen was selected was a special one, and was held at 11 a. m. Mr. Cowen was the choice of the New York and Carpenters interests, their votes being solidly for him. His election was a mere formality as it was decided at a conference between the Baltimore and New York directors at the Hotel Stafford last night to present his name. Mr. Cowen was present at the conference and at the election, and was elected as a compromise. The meeting at which Mr. Cowen was selected was a special one, and was held at 11 a. m. Mr. Cowen was the choice of the New York and Carpenters interests, their votes being solidly for him. His election was a mere formality as it was decided at a conference between the Baltimore and New York directors at the Hotel Stafford last night to present his name. Mr. Cowen was present at the conference and at the election, and was elected as a compromise.

ST. LOUIS COUNTY WINS.

Decision in the West Duluth Tax Cases.

St. Paul, Jan. 24.—This morning Justice Buck, of the supreme court, decided the West Duluth tax cases in favor of St. Louis county. The tax case was brought by Maria H. Norton, an executrix of an estate which had been taxed for public improvements under the law of 1894, prevailing property fronting on such improvements or benefited by them shall be assessed without regard to cash valuation. The parties assessed made no objection to the assessment until the county auditor applied for judgment against the property.

SECURED HEAVY DAMAGES.

Chicago, Jan. 24.—Forty thousand dollars damages was awarded today in the case of Herbert B. Gehl against the Mexican Central Railway company. Gehl went to Mexico in 1887, and the next year obtained a position in the office of the company. He had been there two years when the robbery occurred, which caused him to be arrested and held until he was released on a demand from Washington. The attorneys for the defendant moved for a new trial, and the case will be taken to the highest court.

MARSHAL OF OKLAHOMA.

Washington, Jan. 24.—The president today sent to the senate the nomination of Patrick S. Nease, of Oklahoma, to be marshal of the United States for the territory of Oklahoma.

SHIP ROANOKE IS SAFE.

San Francisco, Jan. 24.—The American ship Roanoke, Capt. Hamilton, which left New York 27 days ago, has been safely reached port after a season of disaster and death. The ship's original crew were lost in the Atlantic and sixteen were left in the hospital at Rio Janeiro.

PANIC AT A FIRE.

Chicago Blaze at Which Loss Was Trifling.

Chicago, Jan. 24.—A fire, which broke out in the old Stock Exchange building, on the northeast corner of Dearborn and Monroe streets, caused a panic among the occupants. The building is a six-story structure, and the location on one of the most crowded street corners in the city. People on the fifth floor, where the flames were first discovered, found their way to staircases barred by smoke, and resorted to the fire escapes. One woman, completely unnerved, appeared at a window on the Monroe street side, and endeavored to leap to the street. She was seized by a man, who held her until the flames subsided and then rescued her. The persons attending the efforts of the people in the building accounted for the fire. The loss was trifling.

St. John, Jan. 24.—The official investigation into the cause of the fire which destroyed the circus theater at Dekatohol, the capital of the Southern Russian government of that name, has not been able to establish the real cause of the disaster, which is believed to have resulted in a loss of over seventy lives. The fire alarm was given by an actress who appeared on the stage during a children's matinee. She screamed with fright and threw the whole audience into a panic.

RUSSIA'S HORROR.

Investigating the Recent Theater Fire Trap.

St. Petersburg, Jan. 24.—The official investigation into the cause of the fire which destroyed the circus theater at Dekatohol, the capital of the Southern Russian government of that name, has not been able to establish the real cause of the disaster, which is believed to have resulted in a loss of over seventy lives. The fire alarm was given by an actress who appeared on the stage during a children's matinee. She screamed with fright and threw the whole audience into a panic. Only two out of eight exits were found to have been securely closed on account of the cold weather. The iron roof of the building collapsed, killing a number of persons. The victims were mainly children and in addition to those burned to death, suffocated by smoke or crushed by the fall of the roof, many were trampled to death. All the performers who were in their dressing rooms or at the back of the stage when the fire broke out, succeeded in escaping.

TWO HANGINGS.

Murderer Foster Strangled to Death in Chicago.

Chicago, Jan. 25.—Henry C. Foster, colored, was hanged in the county jail today as a special reserve during the coming summer of 1896, and only to be used in case of absolute necessity by the bank, during Mr. Fleischmann's absence on his summer vacation. The story is that not long afterward Ramp went to Fleischmann's attorneys and made the astonishing confession that he had spent the entire sum in gambling in stocks, racing, etc. Ramp, to save the credit of the bank, kept the story quiet, and arranged to have Ramp elected to the state senate as an excuse for severing his connection with the bank. What arrangements, if any, were made to pay the money he did not know, but Fleischmann says Ramp does not owe him a dollar.

STRANGLING IN ARKANSAS.

St. Louis, Jan. 24.—A special from Van Buren, Ark., to the Post Dispatch says that a man named John, a Cherokee Indian, was hanged this afternoon for murdering Henry Bacon in July last year. He died of strangulation, and was cut down at 10:45 o'clock. He was a noted desperado and all around criminal, and killed a man named Ellison at Houston, Tex., last year.

DELAYED THE MAILS.

Lynchers' Assistants Arrested By Government Officials.

Louisville, Ky., Jan. 24.—A special from Fayette, Tenn., says Deputy Marshal Newman yesterday served warrants on three persons for which they were arrested. The warrants were for the arrest of the three persons for the murder of a man named Ellison at Houston, Tex., last year. The arrests resulted from an investigation made a few days ago by Postoffice Inspector Beard, of the delay of the train between Louisville and Nashville, which removed Joseph Robertson and Elias McGee from the train and held them until a Louisville mob could come and lynch them. The negroes were en route to the penitentiary.

EXAMINING THE ASSETS.

St. Paul, Minn., Jan. 24.—Joseph E. Osborne, of Minneapolis, an expert accountant, is engaged in State Treasurer Kearney's office in securing a copy of the list of mortgages held by the American Savings and Loan association, which was recently placed in the hands of a receiver. The association has 250 mortgages recorded and on file in the office of the state treasurer. They are required by law to be deposited with the state treasurer for the protection of clients of such associations. Mr. Osborne is working for Receiver Hale and verifying the assets and liabilities of the concern. He has not gone very far into his work and informed a reporter that he could furnish no statement that will throw further light on the transactions of the concern.

LAWYER'S SUDDEN DEATH.

Colorado Springs, Colo., Jan. 24.—Charles Edward Tracy died suddenly about midnight, of hemorrhage. He had been entertaining friends during the evening, and seemed in the best of spirits. Mr. Tracy came to Colorado Springs in November, 1894, for his health. Before that he was an active member of the law firm of Stetson, Tracy, Jennings & Russell, of New York city. He was a close friend of President Cleveland, with whom he was formerly associated in the law business.

THE DAVIS RESOLUTION.

Washington, Jan. 24.—Senator Lodge has made a canvass of the senate on the Davis resolution, which would limit the time for which a senator could be re-elected. He has not been able to find more than four senators that will be re-elected. He says there are still a large number of senators on the subject and that it is too early to say when the vote will be taken, but that the decision will be made rapidly after the bond bill shall be disposed of.

WIDOW'S PENSION GRANTED.

Washington, Jan. 24.—(Special to The Herald.)—A widow's pension was today granted to Byron E. Postes, of Duluth.

HARRISON

President Appeared as Counsel in the Supreme Court This Morning.

Thousands of Washington People Flocked There to See Him.

He Appeared But Slightly Changed and That For the Better.

Washington, Jan. 24.—The supreme court room was the center of attraction today. The news that ex-President Harrison would appear, drew thousands through the mud and rain to the capitol and for two hours before noon the halls were thronged and the doors besieged. Owing to the very limited space in the old senate chamber, where the supreme court sits, the public was generally disappointed and few persons gained admission. In the court room were quite a number of senators and representatives and some of the most prominent of the country, including Joseph Choate, of New York. Mr. Harrison appeared just after the marshal had called the court to order. He took a seat at a table immediately in front of the chief justice and sitting there, he immediately became the target for all eyes. It was his first public appearance in Washington since he left the White House three years ago. His appearance had changed but slightly. The crowd looked on with interest and time had seemingly dealt kindly with him. There was the same soft gray hair and beard almost white, the clear, pallid complexion and the bright gray eyes. He wore a suit of ordinary space tactics and consulted his notes freely, while ex-Chief Justice Hughes, who sat beside him, was speaking. There was a great array of legal talent on both sides of the case.

DEFENSELESS CITIES.

Army Officer's Opinion of Some Lake Ports.

Columbus, Ohio, Jan. 24.—Capt. James A. Burns, United States infantry, in a paper published here today, points out the present and possible force which England would be able to marshal upon short notice along the lakes and across Chicago. He says that a force of 100,000 men could be landed at Cleveland and the place would be the scene of a battle. The capture of Cleveland would result in an effort to cut rail communication between the East and West at Columbus, Chillicothe and Portsmouth, which would block everything from the West, including freight for the Chesapeake & Ohio.

Capt. Burns says the capture of Columbus would be of more importance to the British navy than the capture of any port south of Fort Monroe and argues for better lake defenses. One suggestion is to build a 100 foot wide at the bottom and 20 feet deep across the state of New York to use for commerce in time of peace and to admit our smaller vessels to lakes in time of war.

FIGHTING CARNIVAL.

Dan Stuart's Official Program and Purposes.

Denver, Jan. 24.—A special to the Times from El Paso, Tex., says: The program for Stuart's fight tournament has been completed as follows: Feb. 15—Mabel vs. Fitzsimmons, purse \$1000 and heavy weight championship of the world. Feb. 16—George Dixon vs. Jerry Marshall, purse \$500 and featherweight championship of the world. Feb. 17—Jimmy Barry vs. Johnny Murphy, purse \$500 and bantamweight championship of the world. United States Attorney General Harmon has written the El Paso Minister of the Interior that he has notified the New Mexico authorities to set in the prize fight matter as their judgment dictates.

SUSPENDED WHEELMEN.

Racing Board Declares a Number of Penalties.

New York, Jan. 24.—Chairman Gleason, of the racing board of the L. A. W., has issued a bulletin declaring the following men professional: H. L. Johnson, of Hotden, Iowa; James Hazen, of Minneapolis, Minn. Also suspended from track racing for one year from this date for competing in unsanctioned races while under suspension, C. O. Hiles, of Sioux City, Iowa. Also for competing in unsanctioned races while under suspension, Lyman Myers, of Minneapolis. Also suspended from all track racing for three months from Dec. 31, 1895. Suspended: O. O. Hayman, Grand Island, Neb., from all track racing until July 1, 1896, for false entry at Keosauqua, Neb.; A. A. Hanson, Minneapolis, and W. E. Becker, Minneapolis, for three months from this date, for competing in unsanctioned racing.

NOT EXACTLY AN ALLIANCE.

New York, Jan. 24.—A Herold special from Berlin says: A Turkish supplementary asserts that no alliance exists between Russia and Turkey, but that there is an understanding between the two countries of so intimate character that it practically amounts to the same thing.

PANTON & WATSON,

GLASS BLOCK STORE, DULUTH, MINN.

The big inventory sale creates more attention than any similar sale ever attempted in Duluth before. You hear no unfavorable comments on our grand bargains—everybody is satisfied.

TOMORROW, SATURDAY--

We will endeavor to outdo all our previous efforts at bargain-giving, convincing our patrons that the BIG GLASS BLOCK STORE is the place to trade. Mark what we say.

KID GLOVES—A new Street Glove, patent buttons, newest shades, for tomorrow at, a pair..... **\$1.25**

Sillierstein & Bondy

THE CLOSE

Sessions of the Immigration Convention Concluded Last Evening.

Papers By S. H. Hall, of Minneapolis, Prof. Kleiberger, of St. Cloud.

Banquet in the Evening With Happy Post Prandial Speeches.

At the afternoon session of the Sixth district immigration convention yesterday an exhaustive paper on "The Advantages of the Sixth District For Farming and Stock Raising Purposes," by Professor Shaw, S. H. Hall of Minneapolis, followed with an address on "Pointe Laing."

God made the potato to feed mankind, he said, and it grows easily and with little expense right here in the Sixth district. Then Mr. Hall told of the hundreds of tons of glucose and starch made from the tubers which are imported from Germany. The farmers tried potato raising last year and a revolution followed. Thousands of bushels were left in the ground through a serious error in judgment, because if they had been fed to cattle the profits would have been by no means small.

EDUCATIONAL BENEFITS. "Education in the Sixth District" was the subject assigned President George Kleiberger, of the normal school at St. Cloud. He said in part: "School masters are at a loss in grasping the more practical side of life. However, I consider education one of the prime factors in inducing immigration to our district. It is an old saying that a good quality of man can triumph over unfortunate material conditions. The homeseekers who come into our land should be educated to know how to use the bounty which God has distributed so lavishly. Wealth and culture are not liable to immigrate without we present them educational advantages. The first question they would naturally ask is: 'What kind of school houses have you?' The state of Minnesota has endowed her schools more bountifully than any other in the Union and we are specially favored in the matter of higher education. Minnesota has five normal schools and eighty-six high schools. The Sixth district, with one-eighth of the population, has one-sixth of the state school appropriation."

"The importance of normal schools cannot be overestimated. The teacher has given place to the mind trainer and education today means the development and training of both body and mind. Some one has aptly said: 'The flag of the free can never wave over a nation of deadheads. Our country needs mind elevators. When we have plenty of them we won't have to send to Europe for our artists.'"

TRIP TO THE RANGE.

When the applause had quieted down E. C. Griddle announced that arrangements had been perfected for a trip to the iron ranges. The Duluth, Missabe & Northern railroad had placed a special car on the 7:45 a. m. train this morning at the disposal of the delegates and their friends, returning at 3 p. m. Those desiring more thorough inspection of the mines can go to Biwabik from Virginia and return tomorrow on the Duluth & Range railroad. The offers were accepted and a resolution thanking the railroad for their courtesies was unanimously passed.

E. E. Webster, of New York, reported the North American Review, described his impressions of the Sixth district, which were flattering.

G. H. Thompson, of Duluth, who had been assigned the subject of "Pointe Laing," was unable to be present, but had prepared a comprehensive paper, which was read by Secretary Bruce.

Moses Polson, immigration agent of the Great Northern railroad, concluded the last session with a comprehensive review of the Sixth district and its progress.

THE EVENING BANQUET.

In the evening the delegates and their friends to the number of about 120 banqueted at the Tremont hotel and were regaled with talk and a good meal. E. C. Griddle acted as toastmaster, and after the edibles had been disposed of called on Dr. Kelsey to respond to "The Sixth District as a Congressional District of Minnesota."

The eloquent doctor expressed his admiration and confidence in Duluth.

A. G. Bernard, of the Grand Rapids Magnet, followed and told about Grand Rapids, which he described as having in five years been built from a wilderness into a flourishing city of 2000 inhabitants, with water works, electric lights and telephones. He extended the delegates a cordial invitation to attend the Iasca county convention to be held Feb. 12 and 13.

"The Ladies" was the subject assigned to E. E. Webster. In glowing terms he pictured his cannibal bliss and concluded by observing that should the ladies be taken away civilization would go backward and man would become like apes."

MR. GOODSELL, OF BARNUM.

Here Professor Goodsell told of the progress of Western education, and then the toastmaster introduced C. L. Goodsell, of Barnum, who said:

"Then the toastmaster introduced C. L. Goodsell, of Barnum, who said:

ANSWERS

S. D. Allen Fired the Opening Gun of His Campaign Last Evening.

He Replies in a Vigorous Manner to Henry Truelsen's Criticisms.

That Gentleman Will Now Be Forced to Do Some Explaining.

S. D. Allen developed his strength in West Duluth by a ringing, energetic meeting in Graham's hall last night, which was attended by a large crowd which was warm in its applause and apparently firm in its determination to put the principles advocated by Mr. Allen into the mayor's chair. Before the meeting the Polish band played some national airs. Van R. Brown presided over the meeting, and after expressing his gratification at the number of people who had turned out he introduced H. H. Phelps, the first speaker.

Mr. Phelps said that he could not refrain from touching upon the attack upon the legal profession which had been made the night before. He said that people have used the fact that Allen was a lawyer as an argument against him. There were had members of the bar as well as of all professions, but it really showed ignorance for a man to attack the profession generally. He then went on to show that lawyers were all right, and by way of illustration stated that twenty presidents had been lawyers. After dispelling the argument against Allen because he was a lawyer, he said: "We are struggling in a common cause. Sickness and death has brought us down to a realization that we are all mortal. We must take care of our families. We must take a firm stand."

Truelsen claims to be the original promoter of the idea of pure water. So far as I know he was the first to say so. It is the last campaign. He seems to want an office, and in short, from all appearances, he is suffering from a bad attack of a disease for which the doctors do not prescribe anything. He has certainly been a candidate for office, and Mr. Allen never has been a candidate until now except for office of city attorney, which he held from 1889 to 1892.

C. E. LOVETT SPEAKS.

C. E. Lovett followed. He said in substance: "Louis XIV. of France, in a speech to the state, it requires love of country to have good government. It is the office of an administration become corrupt. It is the people's duty to turn it out."

After a general introduction of Mr. Allen proceeded with Mr. Allen and the gas and water company.

By his side the speaker said that the company were dismissed by the state and the people were to be made his next mayor. He spent some time in telling of the company when he was on the board of public works, which he described as having been his principle hobby was a tunnel across the canal.

This, he showed, was an extravagant and useless idea. He said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

He then said that the company was a waste of money, and that if the gas and water company were to be made his next mayor, he would build a tunnel across the canal.

CITY BRIEFS.

Cullum, dentist, Duluth, Phone No. 9. Smoke Edison cigar. W. A. Foote. The following deaths were reported (the health department today): Mrs. Mary A. Olstad, aged 32 years, at 218 Seventh avenue west, of typhoid fever; Miss Hannah Carlson, aged 21 years, at 252 Garfield avenue, of typhoid fever; Amos C. Batchelor, aged 57 years, at St. Louis hotel, of typhoid fever; James Johnson, aged 44 years, at St. Mary's hospital, of valvular heart disease. The children's "pet" meeting at the hotel this evening promises to be quite as well as interesting. A lot of children's pets, such as dogs, cats, birds, etc., will be gathered there, and addresses will be made by E. C. Gridley, John M. Martin, R. J. Baskerville and others. Miss Nora M. Yates, a missionary to Assam, will speak at the First Baptist church tonight, on her experiences. Northern Star Judge L. O. C. T. entertained last evening at St. Paul hall in a handsome manner. Large delegations from two lodges in West Superior and one in Duluth were present. The ladies sang a fine program, and served tea. The due pensioner is said to be again shown in the lead. Dr. Murray's pet snake was in a precarious condition a day or two, but is recovering and it seems to have been a case of erysipelas poisoning. A county immigration convention will be held at Grand Rapids on Wednesday and Thursday, Feb. 12 and 13. The Duluth and Winnipeg roads have made a one and one-third rate for the round trip. Mrs. E. N. Pheasant, of 405 East Third street, was threatened with fever, but it is believed will escape a run of it.

READ OUR ADVERTISEMENT IN THIS PAPER. We are not chronically before the public with half price sales. We announce a genuine sale of our entire stock of crockery, china, glassware, silverware, etc., beginning Saturday morning, Feb. 1, at P. A. Parker Company, 10 East Superior street.

PERSONAL.

Mr. and Mrs. C. R. Heneage are spending a few days in St. Paul. John Richter has returned from Chicago. Mrs. William R. Eichenman has gone to Dubuque, Ia., for a two months' visit. Rev. H. J. Sheridan left today for Boston, called there by the death of his mother. E. C. Regl and H. G. Larson returned yesterday from Chicago. C. H. Underwood, who has been in the city settling up some real estate matters, returned to Washington, D. C., today. Today's St. Paul & Duluth limited carried a special car for carnival visitors. Among the large number who went down were Mrs. M. H. Crocker, Dr. Fullerton and C. A. Fredricks. N. Vanderpool, passenger agent of the New York Central, is in the city. L. B. Sutton, of Iron Mountain, Mich., was in town today. General Passenger Agent C. W. Hubbard, of the Duluth, South Shore & Atlantic, is here from Marquette. F. L. Murray, of Tower, is in the city. J. B. Kohl, of Chippewa Falls, Wis., was in town today. Mr. and Mrs. Ernest R. Jacovi, Sr., of Grand Forks, N. D., are visiting in the city. R. J. Quinn, of Negaunee, is at the St. Louis.

Condition is Critical. Arthur Gillette, one of the three men who held up E. E. Esau at Hibbing the other day, is lying in a hospital in a precarious condition. When the three men held up Esau he fired several shots at them and one of the bullets took effect in Gillette's arm. He walked eighteen miles in that condition, and subsequently was captured. When he was brought here his arm was in a terrible condition, and he was removed to the hospital. Yesterday the doctors looked the bullet and he is easier today, though blood poisoning set in before the bullet was found.

SUICIDE

Ben Johnson, a Lumberman, Hanged Himself in a Lodging House.

Body Was Found Dangling at the End of a Rope.

Despondency Supposed to Have Caused Him to Commit the Act.

Ben Johnson, a lumberman, committed suicide by hanging early this morning in Tom Treast's lodging house, at 629 West Superior street. The cause of the act is not known. The body was taken to Durkan's undertaking establishment, where it now lies to await the investigation by the coroner.

Late last evening the man, who appeared to be under the influence of liquor, was brought to the house by another man who said he worked with his companion, whom he called Ben Johnson, in the woods and wished to secure lodging for him. Johnson was given a bed which was paid for by the other man, who then left the house. Some time after midnight Johnson evidently became despondent and decided on death as a relief. Dressed in his underclothes and socks he slipped into the hall and taking a penknife cut off a piece of rope from a clothes line, which was stretched across the end of the hall, and fastened it to the wall and then standing on an upturned butter bin, the desperate man adjointed the rope in a noose about his neck and kicked the firkin from under him. There was a moment of strangulation as the rope tightened and all was over. The placid countenance shows that death came without a struggle.

DISCOVERY OF THE BODY. The body was found about 5:30 o'clock this morning by Henry Caplin, a bartender of S. I. Levin's saloon, and who rooms at the house. As he passed through the hall on his way down stairs Caplin noticed by the dim light a man dressed in his underclothes huddling in a corner of the hall. Thinking the peculiarly-acting individual was drunk he shook him by the shoulder and advised him to go to the face to the light and saw the cord. Then he noticed that the man's feet were not touching the floor. Johnson was then taken to the street and the body was taken to Dur-

PHILLIPS & CO.

kan's morgue. The knot was the regulation hangman's slip noose and did its work effectually. Nothing is known of where the man came from and his clothes contained nothing which would aid in his identification. A class knife was the only thing found in his pockets. His companion has not been found by the police.

The dead man was five feet and nine inches in height and weighed about 160 pounds. He was apparently about 45 years old with blonde mustache and smooth-shaven head. He is supposed to have been a Norwegian. The man's clothes were faded and threadbare and he has the appearance of being, as his companion claimed, a lumber jack.

DR. HEWITT'S REPORT.
It is Chaotic and Says Very Little.

Health Officer Hewitt this morning officially requested Mayor Lewis to order the city mains flushed and the matter will be given the immediate attention of his honor.

Yesterday afternoon a report on the water analysis was received from Dr. Hewitt. It is a chaotic document and is not clear on any point. In conclusion the doctor asks to be given the death statistics since the typhoid epidemic commenced.

READ OUR ADVERTISEMENT IN THIS PAPER. Our stock of crockery, china and glassware is the newest, prettiest and largest in Duluth. We are stating a fact to intelligent people. ESCAPED FROM JAIL.

Seventeen Year Old Boy Slipped Through the Window.

Yesterday afternoon Leo Miller, a 17-year-old boy, was arrested by Detective Benson in the act of stealing a sack of flour from an Omaha car, into which he had broken. He was locked up at the Central station. The lad is one of the Miller boys, who were recently arrested with their father in Superior for stealing copper ingots from a car. The boy is out on bail and compelled to report every three days to the sheriff. As soon as Leo was left alone in the lockup, he carefully examined the windows, with an eye to escape. He was successful, and when Jailer McEwen entered the lockup this morning with the bread and Bologna allowance for the prisoner, he had flown. Escape was effected by uncrewing the bolt and taking off the clevis at one of the windows. The police believe he was afforded aid from outside. He had lowered himself to the ground with a rope made by tearing up his shirt.

To Cancel Contracts.

The Western Land association this morning brought suit against J. A. Medica and others to cancel a contract on the sale of lots on Rice's Point to the defendant, on the ground that the payments stipulated in the contract have not been made. It is claimed that of the purchase price, \$4,000, only the first installment has been paid.

The same company has brought a similar suit against R. S. Suttile and to cancel a contract for the sale of lots in Duluth Proper, San Jose division, on the ground that only the first installment of the price of \$31,250 has been paid. Walter Ayres is the attorney in both suits.

The case of the Minneapolis Trust company against the National City Fire insurance company has been settled and dismissed. The case of the Ames-Brooks company against Hans Christopherson et al has been dismissed by the plaintiff.

J. L. Bennett has sued L. H. Goss for \$202.50 for services as stenographer. Frank Grassweller is the attorney.

A. C. Batchelor's Funeral.

The remains of Amos C. Batchelor lay in state in Parlor "D" at the St. Louis hotel this morning, enshrined in elaborate floral pieces and guarded by plumed Knights Templar. The funeral services were held in St. Paul's Episcopal church this afternoon. Rev. Dr. Ryan officiating. The church was well filled with friends and relatives of the deceased and members of the Masonic order, to which he belonged, attended in a body. The pall bearers were Paul Sharkey, Ray T. Lewis, Harry Armstrong, John H. LaFarge, C. M. Newman, J. P. Johnson, James Anderson and W. C. Sargent.

Spectacles, preservers, eye-glasses, 25 cents, 50 cents, 75 cents and \$1. Silver, \$1.50, gold, \$2. Many years earned attention and experience in adapting the above to every condition of impaired vision. Falconer's, Batchelor street, corner Fifty-sixth avenue.

DEFEATS

Spanish Minister at Washington Notified of Several Insurgent Defeats.

Probability That the Mexican Leader Garza Has Been Killed.

Gomez and Maceo Are Said to Be Widely Separated.

The Main Force of Gomez Has Been Dispersed By Cannonading.

Washington, Jan. 25.—Capt. Gen. Marin cabled today from Havana to Minister Dupuy De Lome saying that it was believed that Jose Maceo's insurgent band had been located east of the Conto river, in the province of Santiago de Cuba, and that it had been widely reported, was wounded in an engagement with the Spanish.

ACCEPTS

British Government Agrees to a Bering Sea Commission Plan.

Sir Julian Pouncefote Calls on Secretary Olney and Informs Him.

No Reply as Yet to the Venezuelan Commission's Late Letter.

Washington, Jan. 25.—Secretary Olney was called on today by Sir Julian Pouncefote, the British ambassador, who submitted the final acceptance of the Bering Sea commission to pass upon the claims of Canadian sealers, seized prior to the Paris award. It remains only for the president to submit the plan to congress, and as the legislative branch has refused to oppose it, it is certain that the plan will be approved. It is quite probable that the president, in submitting the plan, may suggest once more the desirability of a lump payment as the most expeditious means of settlement, for the

Two rebels who were captured say that Gomez is suffering from a bullet wound in the leg which he received on Jan. 10 at the fight which took place at La Juma. Among the wounded yesterday is Castillo, who became separated from the rebel force. Gomez's idea is to assist Maceo as the latter's situation is causing him much anxiety. Gomez has sent messengers to Matanzas for the hand under Alvarez and Nunez. The Spanish loss was small.

The death of the insurgent leader Simon Sanchez from wounds received in an engagement with the Spanish troops is confirmed from several sources. The insurgents commanded by Lacerot, Clotilde, Garcia and Roban, while on their way to Cervantes, in the province of Matanzas, burned three estates and attacked a fort at the River Camajual. They were repulsed with a loss of four killed.

The large crowd numbering several thousands of people which gathered today at the public drawing of the lottery caused the drawing to be temporarily suspended. It will be resumed this evening. A dispatch received this afternoon from Manzanillo, province of Santiago de Cuba, says that Gen. Gonzalez Munoz, at the La Mula pass in the river district, overtook the insurgents commanded by Castillo, Francisco, Isidoro and Salvador. After two hours' fighting, during which the Spaniards made good use of their artillery, the insurgents' position was captured and they were compelled to retreat with numerous losses. The troops had one man killed and sixteen wounded. Of the latter, eight men are seriously wounded.

This is regarded as of special importance as the army of Maceo and Rabi has been depended upon by the insurgents to succor Gomez in Havana province. Maceo's position on the Conto river, it is said, is such that it will take him several weeks to reach Gomez, even if he is unopposed. This leaves Gomez to withstand the Spanish forces, which purpose closing in on him.

The dispatch says that the Mexican, which probably refers to Garza, has been foremost in burning plantations, was killed. The dispatch is as follows:

"Havana, Jan. 25.—The day before yesterday Maj. Talavera, of the American regiment, defeated the band of Auletto, numbering about 200 men, disbanding them and killing Chief Castillo, and capturing eleven horses, saddles, arms, ammunition and sanitary supplies. Following up the insurgents he found a band of about 200 men commanded by the Mexican, dislodging them and killing four, among them the Mexican. They had many wounded, and the troops captured also arms, horses.

"The lieutenant of the civil guard of the Covarruz post met the rebels in the Tinguano plantation, near Matanzas, taking ten prisoners, among them the leader, Jacinto Collaro, capturing also arms and ammunition, which they left in their flight. Commander Abrego, of the Alava battalion, had an encounter yesterday in Cienfuegos province with the bands of Serafin Sanchez, Antecio Hernandez and Auletto, the enemy had twelve killed, fifteen wounded, five horses killed, fifteen captured with their saddles. In Salua, Habana province, fifteen insurgents have voluntarily surrendered, two with their arms. According to some news, not yet confirmed, Jose Maceo, with 1500 men, has crossed the Conto river to the west. Marin."

Jose Maceo was, according to insurgent reports, in the province of Santa Clara, with Rabi. This leader, as al-

ready reported, was wounded in an engagement with the Spanish.

More Defeats. Gomez' Main Force Dispersed By Cannonading.

Havana, Jan. 25.—Col. Galbas, of the Spanish army, who has been in pursuit of Gen. Gomez, commander-in-chief of the insurgent forces, telegraphed today from Quilevan, south of this city as follows: "I started from San Felipe to Peseo Redondo. Learning at the latter place that the army was crossing the line between these towns, I returned to cut them off at Puntaraya. After half an hour's journey, I cannonaded their main force and succeeded in placing myself in their midst at the San Raphael cattle farm, causing them many losses. Ten men were killed with bayonets by our guerrillas. The engagement lasted from 4 o'clock in the morning until 11 o'clock last night.

"Two rebels who were captured say that Gomez is suffering from a bullet wound in the leg which he received on Jan. 10 at the fight which took place at La Juma. Among the wounded yesterday is Castillo, who became separated from the rebel force. Gomez's idea is to assist Maceo as the latter's situation is causing him much anxiety. Gomez has sent messengers to Matanzas for the hand under Alvarez and Nunez. The Spanish loss was small.

"The lieutenant of the civil guard of the Covarruz post met the rebels in the Tinguano plantation, near Matanzas, taking ten prisoners, among them the leader, Jacinto Collaro, capturing also arms and ammunition, which they left in their flight. Commander Abrego, of the Alava battalion, had an encounter yesterday in Cienfuegos province with the bands of Serafin Sanchez, Antecio Hernandez and Auletto, the enemy had twelve killed, fifteen wounded, five horses killed, fifteen captured with their saddles. In Salua, Habana province, fifteen insurgents have voluntarily surrendered, two with their arms. According to some news, not yet confirmed, Jose Maceo, with 1500 men, has crossed the Conto river to the west. Marin."

Jose Maceo was, according to insurgent reports, in the province of Santa Clara, with Rabi. This leader, as al-

ready reported, was wounded in an engagement with the Spanish.

More Defeats. Gomez' Main Force Dispersed By Cannonading.

Havana, Jan. 25.—Col. Galbas, of the Spanish army, who has been in pursuit of Gen. Gomez, commander-in-chief of the insurgent forces, telegraphed today from Quilevan, south of this city as follows: "I started from San Felipe to Peseo Redondo. Learning at the latter place that the army was crossing the line between these towns, I returned to cut them off at Puntaraya. After half an hour's journey, I cannonaded their main force and succeeded in placing myself in their midst at the San Raphael cattle farm, causing them many losses. Ten men were killed with bayonets by our guerrillas. The engagement lasted from 4 o'clock in the morning until 11 o'clock last night.

"Two rebels who were captured say that Gomez is suffering from a bullet wound in the leg which he received on Jan. 10 at the fight which took place at La Juma. Among the wounded yesterday is Castillo, who became separated from the rebel force. Gomez's idea is to assist Maceo as the latter's situation is causing him much anxiety. Gomez has sent messengers to Matanzas for the hand under Alvarez and Nunez. The Spanish loss was small.

The death of the insurgent leader Simon Sanchez from wounds received in an engagement with the Spanish troops is confirmed from several sources. The insurgents commanded by Lacerot, Clotilde, Garcia and Roban, while on their way to Cervantes, in the province of Matanzas, burned three estates and attacked a fort at the River Camajual. They were repulsed with a loss of four killed.

The large crowd numbering several thousands of people which gathered today at the public drawing of the lottery caused the drawing to be temporarily suspended. It will be resumed this evening. A dispatch received this afternoon from Manzanillo, province of Santiago de Cuba, says that Gen. Gonzalez Munoz, at the La Mula pass in the river district, overtook the insurgents commanded by Castillo, Francisco, Isidoro and Salvador. After two hours' fighting, during which the Spaniards made good use of their artillery, the insurgents' position was captured and they were compelled to retreat with numerous losses. The troops had one man killed and sixteen wounded. Of the latter, eight men are seriously wounded.

This is regarded as of special importance as the army of Maceo and Rabi has been depended upon by the insurgents to succor Gomez in Havana province. Maceo's position on the Conto river, it is said, is such that it will take him several weeks to reach Gomez, even if he is unopposed. This leaves Gomez to withstand the Spanish forces, which purpose closing in on him.

The dispatch says that the Mexican, which probably refers to Garza, has been foremost in burning plantations, was killed. The dispatch is as follows:

"Havana, Jan. 25.—The day before yesterday Maj. Talavera, of the American regiment, defeated the band of Auletto, numbering about 200 men, disbanding them and killing Chief Castillo, and capturing eleven horses, saddles, arms, ammunition and sanitary supplies. Following up the insurgents he found a band of about 200 men commanded by the Mexican, dislodging them and killing four, among them the Mexican. They had many wounded, and the troops captured also arms, horses.

"The lieutenant of the civil guard of the Covarruz post met the rebels in the Tinguano plantation, near Matanzas, taking ten prisoners, among them the leader, Jacinto Collaro, capturing also arms and ammunition, which they left in their flight. ACCEPTS

British Government Agrees to a Bering Sea Commission Plan.

Sir Julian Pouncefote Calls on Secretary Olney and Informs Him.

No Reply as Yet to the Venezuelan Commission's Late Letter.

Washington, Jan. 25.—Secretary Olney was called on today by Sir Julian Pouncefote, the British ambassador, who submitted the final acceptance of the Bering Sea commission to pass upon the claims of Canadian sealers, seized prior to the Paris award. It remains only for the president to submit the plan to congress, and as the legislative branch has refused to oppose it, it is certain that the plan will be approved. It is quite probable that the president, in submitting the plan, may suggest once more the desirability of a lump payment as the most expeditious means of settlement, for the

HUMAN

The Criminal Laws of the Hebrews Are Regarded as Humane.

The Numerous Distinctions Which Are Made Between Different Crimes.

Witnesses Must Notify the Culprits Before Starting Prosecutions.

Distinction is made in the Mosaic legislation between the wilful crime and an accidental one. Thus, if it was proved that one had waylaid another and murdered him, the slayer was to be taken from the altar to be executed, implying by that, according to the commentators, that even if he were a priest and performing his functions, he should be taken from them and punished.

If one accidentally killed another he could be into one of the cities of refuge, of which there were six. In the Books of Numbers the conditions of concealment in the city of refuge are minutely detailed. The Mosaic law knows of no imprisonment, neither of torture to force confession. In all cases punishment was meted out on the proof of two witnesses, never on the statement of one, and in that case the witness had to supply direct evidence, and no circumstantial evidence sufficed. In every respect the Mosaic legislation considers personal rights.

Of capital punishment the Pentateuch knows only of stoning to death, which could only, as he has mentioned, be inflicted by the conclusive evidence of two witnesses, in which case the witnesses had to throw the first stones at the convict. Death by burning is mentioned once, but that is of a pre-Mosaic period. In cases of theft the law is restitutive, with an additional fine, was generally practical. The Talmud, the desire for justice, declares that punishment should not be meted out, even upon the statement of the witnesses, unless they warned the culprit at the time he committed the deed.

In post-biblical literature capital punishment is a rarity, and the most distinguished Talmudists have expressed themselves against it. The mode of judicial procedure, as recorded in the Talmud, in cases involving the question of capital punishment was as follows:

HOW THE JUDGES SAT.
Twenty-three judges sat in a semicircle, and in front of them were three rows of men versed in law, each row containing twenty-three individuals who remained there during the whole procedure, and from whom were taken judges to decide the case when it became necessary. The scribes recorded the proceedings in detail—the arguments of the prosecution, another, the arguments of the defense, and a third recorded both sides. The witnesses had to be of unblemished character and having no connection whatever, in business or relationship, with the accused. If a majority of two voted for a verdict of guilty the sentence was suspended for the day and a continuance was taken until the following day. A unanimous verdict of guilty was not considered valid.

All these precautions were for the purpose of avoiding capital punishment, which was against the principles of Judaism to take life. For 40 years before the downfall of the Jewish state no case of capital punishment came up, because the Sanhedrin was suspended. Individuals involved against capital punishment by saying that a judiciary that pronounced the death sentence even once in seven years was destructive. Not only in criminal offenses was capital punishment allowable, but also for false prophecy, sedition to idolatry, desecration of the Sabbath, blasphemy of the deity, etc. The mode of punishment in the foregoing cases was beheading or hanging, and for violation of conjugal fidelity, burning.

TALMUDIC MAXIMS.
The Talmud contains many maxims, such as the following:

A majority of one is sufficient for acquittal, but it requires a majority of at least two for conviction.

A man is his own king.

A minor has no discretion. A person deserves not the title of man before reaching the age of 25 years.

A simultaneous and unanimous verdict of guilty acquits.

A single accuser deserves to be treated as a slanderer.

A Sanhedrin executing one human being in the course of every seven years is a murderous tribe.

A verdict of conviction may be reversed, but not one of acquittal.

A verdict of guilty may not be rendered on the day of the trial.

All evidence must be direct, and not circumstantial or presumptive.

All Israelites are responsible for one another.

An equal division of the court on a verdict is an acquittal.

As Moses sat in judgment without the expectation of material reward, so also must every judge act from a sense of duty only.

Be slow in judging.

By punishing criminals the world is benefited.

Crimes committed under duress are not punishable.

Cross-question the witness closely.

Death atones for sins.

Divulging the individual opinions of judges is slander.

Drink not and thou wilt not sin.

Each witness must be qualified to testify to the whole case, and not only to part thereof.

Evidence must be heard directly from the mouths of the witnesses, and not through an interpreter or written document.

Extraordinary crimes legalize extraordinary punishment.

He who lays himself a Hebrew slave buys himself a martyr.

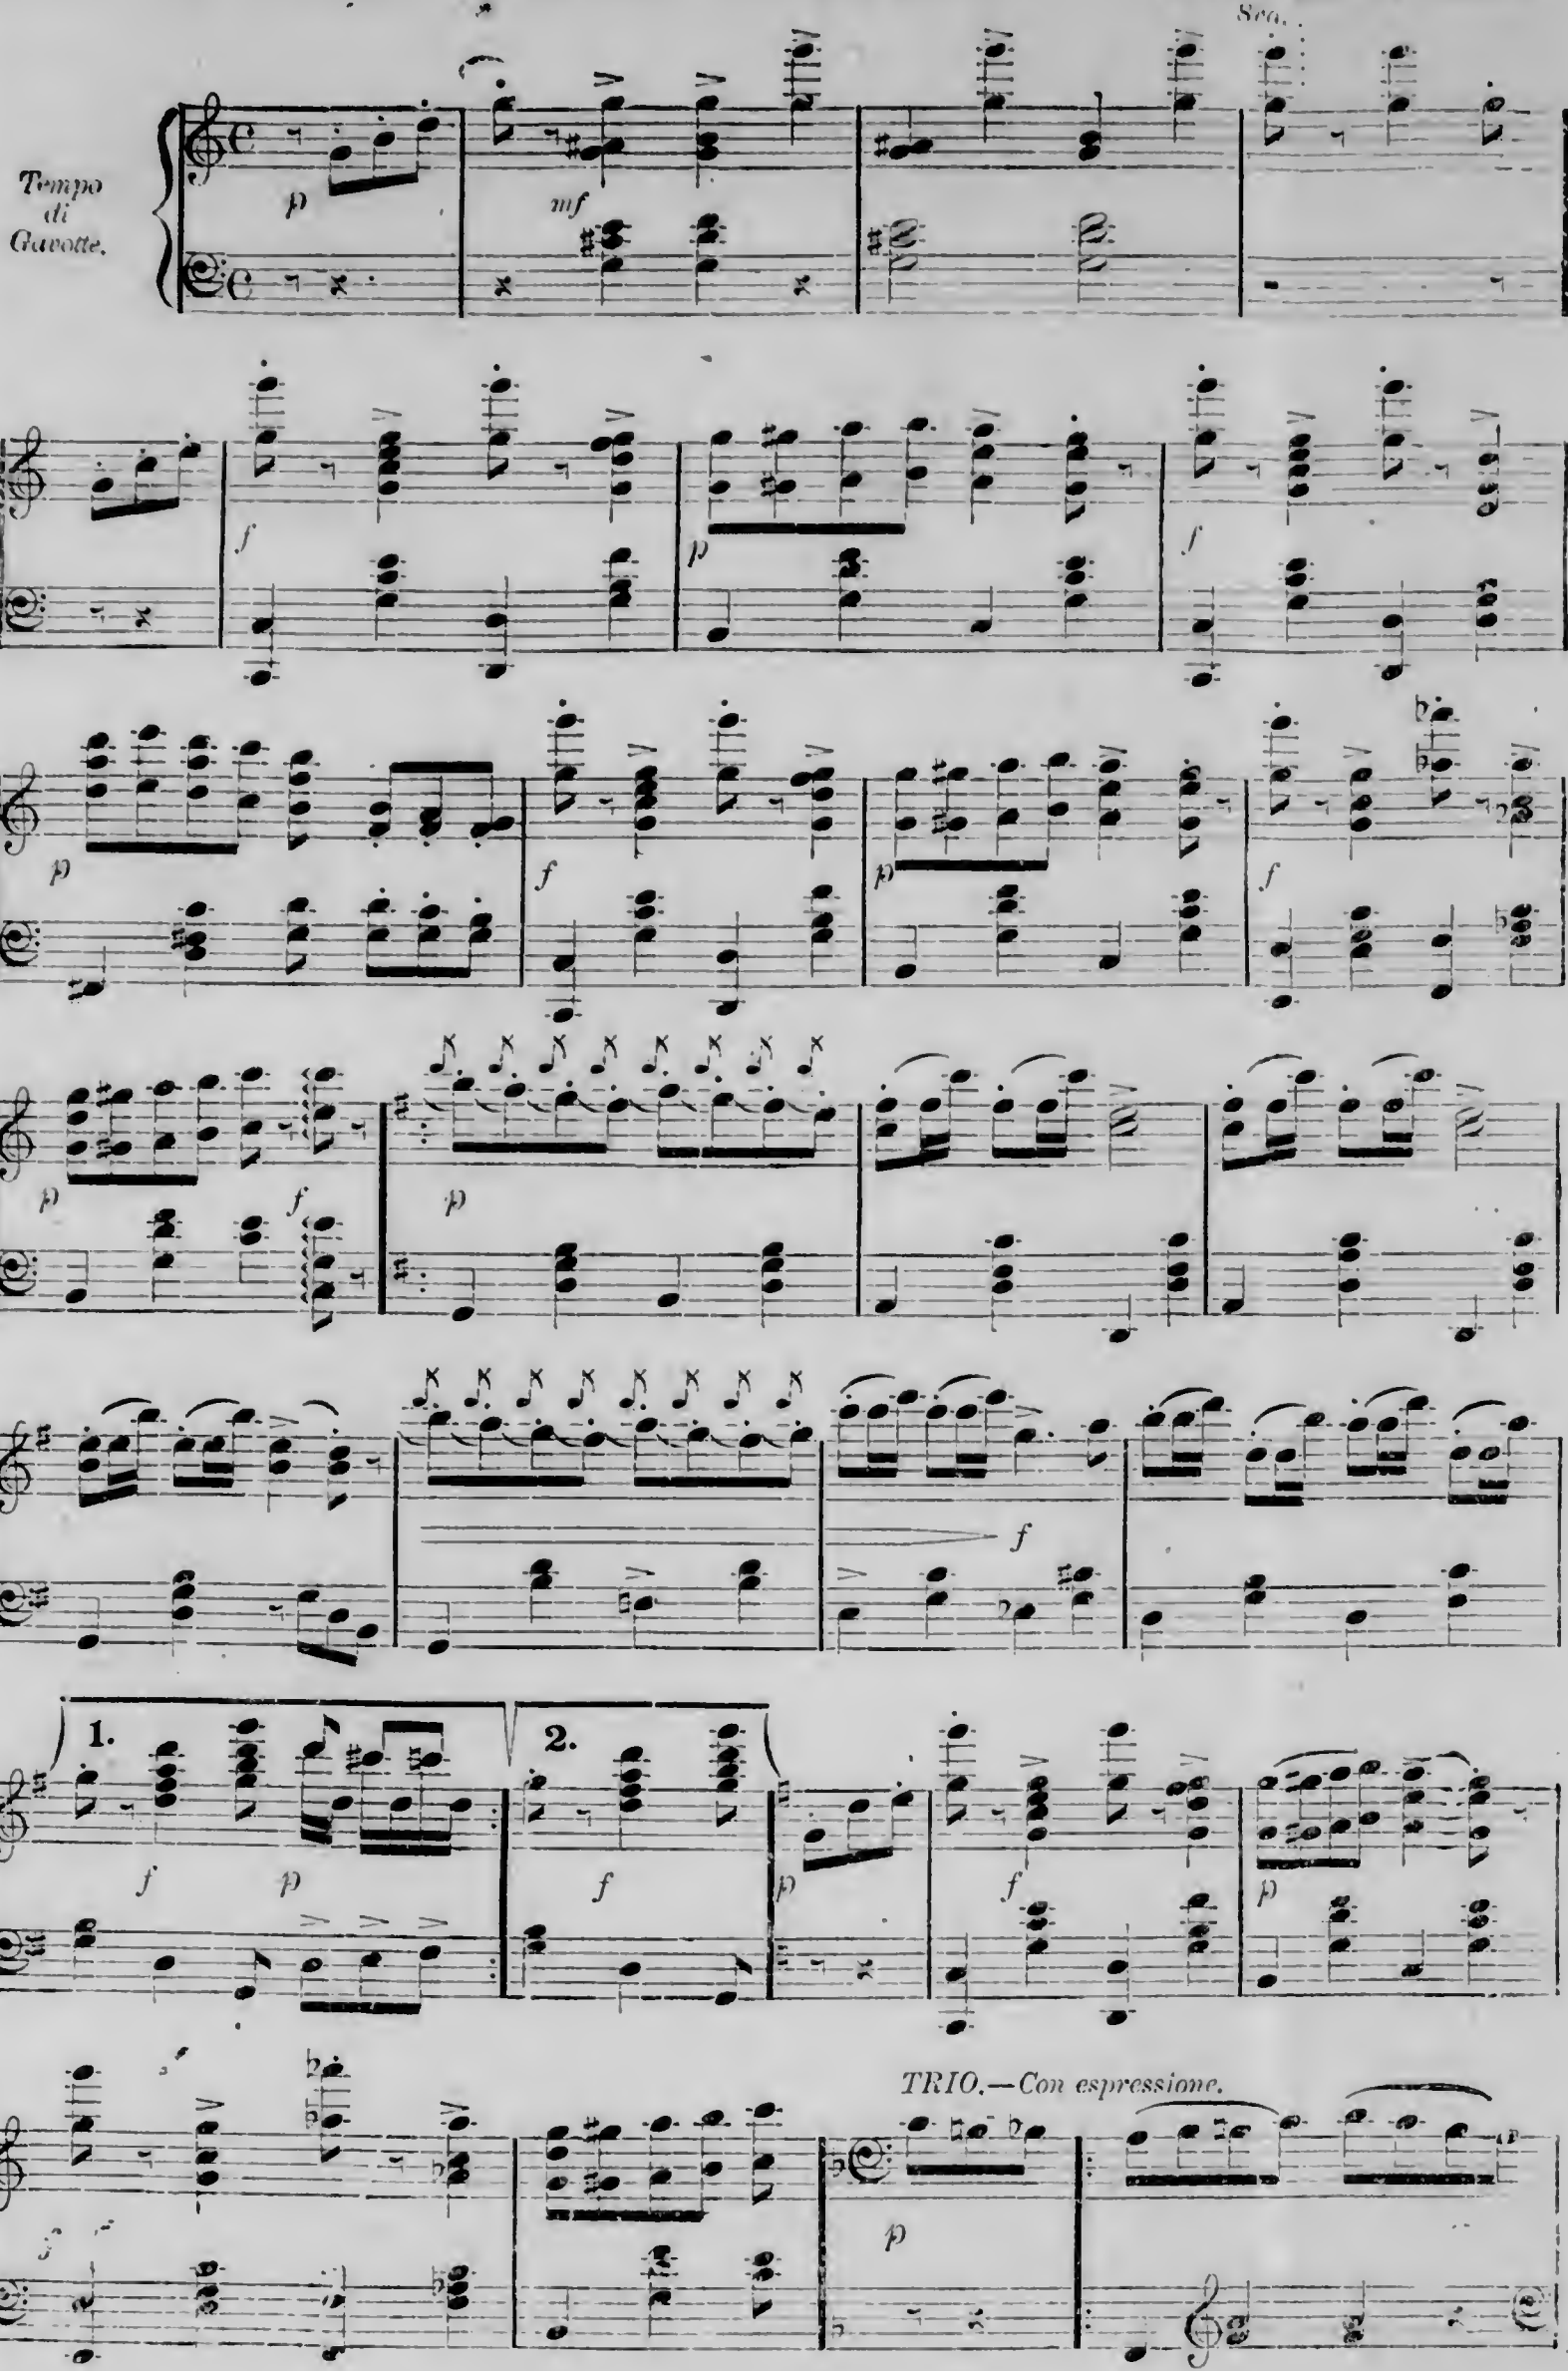

He who gives the death blow is alone responsible.

If one witness is found disqualified the whole party is disqualified.

Immediate behavior is a bar to the witness stand.

THE FIRST KISS.

The First Kiss—2.

A REAL ROMANCE.

Remarkable Career of a Foundling Girl Infant.

One night in 1801 a little girl about 1 year old was deposited in the drawer of the Foundling hospital at Brest. She was dressed with much finery and a note attached to her skirts told that her name was Solange, and that she would be reclaimed by her father, says Pearson's Weekly.

No mercy may be shown when that is contrary to justice.

No one who may be a competent witness whose knowledge of the facts is based on hearsay or conjecture.

Some but the legal executioners may execute the convicted.

One court may not try two capital cases in one day.

Part of the evidence being invalidated, the whole is invalidated.

No one who may be a competent witness in a cause may be a judge of the cause.

Self accusation does not convict.

Self accusation of misdemeanor involving the witness exempts the culprit from paying the fine.

Similarity in expression between the witness and the accused, suspicion of conspiracy and coaching.

Testimony must not be heard in the absence of the party concerned.

The blood of the victim of false testimony and that of his lost progeny falls upon the heads of the witnesses.

BURGlar's DEATH WARRANT.

The act of breaking in is the burglar's death warrant.

The convict must not be kept in suspense.

The drunkard is responsible for his actions.

The end of a period is considered as the beginning.

The judgments for which the judge swears are void.

The less punishment is discharged in the greater.

The person witnessing an act during his minority is not competent to testify thereto even after reaching his majority.

The robe of the unfairly elected judge is to be respected not more than the blanket of the ass.

The suborned witness is despised even by his suborner.

The voices of a father and son, or of teacher and pupil, are counted as one.

Where there are officers to enforce the judgment the judges can act, but where there are no officers there can be no judges.

Whoever compassions a human being obtains compassion from heaven.

Whoever preserves one worthy life is as meritorious as if he had preserved ten.

Whoever will not tell the truth without oath, shall not be scrupled to assert falsehood with an oath.

Whomsoever with age.

A COME DOWN.

Sketch: Our whole neighborhood has been stirred up, said the regular reader. The editor of the country weekly seized him, and said: "What stirred it up?"

These investigations were made by the Swedish ambassador, and in a somewhat official manner, they attracted some attention.

Cap'n Kramer heard about the inquiry and sent a note to the ambassador, and a month later the ambassador came in state to bring Mr. Kramer a formal acknowledgment from her father, the former King Charles XIV. of Sweden, Capt. Kramer and his wife went immediately to Stockholm and were ennobled. Their son some time ago was appointed attaché to the Swedish legation in Paris.

THEY LEFT THEIR PETS.

There were some amusing sights at Vera Cruz when the French and Belgian troops were evacuating that city, and leaving Mexico for their foreign home.

When she was 12 years old she was sent out into the streets to sell flowers, and her beauty and her modesty attracted many people's good will, but she grew weaker and weaker, and at last she died, or at least it was thought so.

According to French custom she was buried in an open basket, and as it was laid in the grave covered only with a thin layer of sand. During the night she

awoke, pushing the sand away, crept out from the grave.

Not exactly understanding what had taken place, she was not so very much frightened; but, in crossing the glade between the cemetery and the fortifications, she was suddenly stopped by the cry: "Qui vive?" and as she did not answer, she retired, and she fell to the ground.

Brought into the guard house, her wound was found to be very slight, and she soon recovered. But her singular history and also her great beauty had made so deep an impression on a young lieutenant of the garrison—Kramer—that he determined to be her protector, and sent her to one of the most fashionable educational establishments in Paris.

During the next few years Kramer was much tossed about by the war, but when in 1815 he returned to Paris, he found Solange a full grown woman, not only beautiful, but accomplished and spirited, with no more trace of intellectual weakness or nervous fits. He married her, and for several years the couple lived happily in Paris.

Meanwhile investigations were made concerning the girl left in 1801 in the foundling hospital at Brest, and, as

to carry back home with them. They had collected specimens of pretty nearly everything animate and inanimate that was loaded with them. They had young mountain lions and every common kind of rare plumage, little animals and big ones and eagle gulls, quite enough to load many wagons.

The officers never intended that the specimens should be carried away by the men, but they had hesitated to order them to dispose of their collections during their march for fear there would be trouble.

But when the order came to evacuate and leave Mexican shores the brigades were marched down to the wharves, and animals held captive by the men. They were lined up and ordered to release all the animals held captive by the men. They were lined up and ordered to release all the animals held captive by the men.

The men had the small animals cased, perched on their shoulders and hidden in every other manner imaginable, and the

whole collection resembled the march of Noah's collection in the ark. The men grumbled at the order, which they considered was useless and unprofitable, but they obeyed and went away without complaint. There were loads of curiosities left lying in the woods recently, hauling on a stone cart, and the men left it was one of the most novel sights I ever saw.

A POSSIBLE ANANIAS.

Bill Coons and Steve Bargett, of Canton, Ark., were taking a short cut through the woods recently, hauling on a stone cart, and the men left it was one of the most novel sights I ever saw.

Set up the witness while I hot out, shouted Bargett. In about ten minutes Coons had the witness standing next to him, and the witness was hoisted around the hind quarters of the only possum in

the collection. The witness was hoisted around the hind quarters of the only possum in the collection.

FAVORED BY THE QUEEN.

Two thousand dollars a year, everything found, and presents to the tune of about \$500 a year, constitute the value of the post of chief gillie, or highland attendant, to Queen Victoria, which has been conferred upon William Brown, a nephew of the famous John Brown, says the Home Journal.

Although the office is that of a menial, yet it is one of such importance that the entire court has been in a state of excitement over the matter. This is attributable to the fact that servants of the class of William Brown and of the German yeagers in attendance on the royal family are permitted far more freedom of speech than courtiers and nobles. The distance between the sovereign and the menial is so great that she feels that she can afford to manifest a familiarity toward him which she could not permit herself to accord to persons of higher rank in society without danger of their presuming thereon.

How close John Brown stood to her majesty is shown by her constant reference to him in the published pages of her diary. It was: "Dear John Brown had cut the inside of his knee badly with the edge of his wet kilt," or that "Poor Brown had been badly stung on the legs by some hornets that had taken offense at his highland costume."

It would be difficult to define the duties of chief gillie, which John Brown fulfilled, and upon which his nephew has now entered. They consist in being at the queen's hand from the moment she arises until she retires at night. He stands behind her chair at breakfast, taking the things from the servants and himself handing them to her. He walks behind her donkey carriage when she drives down to Frogmore to attend to the dispatches and public papers. He sits in the rumble of her carriage when she drives out in the afternoon, and assisted by one of her Indian attendants, lifts her in and out of the vehicle. He supports her when she walks any distance, and in the early days of her widowhood, when she used to undertake mountain excursions in Scotland, it was John Brown who carried her in his arms across streams and difficult places.

COORINATION OF A CZAR.

When a new czar is crowned 20,000 to 30,000 of his subjects from all parts of the empire assemble at Moscow, deputations being sent from all the provinces and representatives from every tribe within his immense domain—from Siberia and Central Asia, and from the Pacific to the Arctic sea, says the New York Tribune. Among them are Poles, Finlanders, Lapplanders, Cosaks, Circassians, Georgians, Jews, Turk, Tcherkessians, Abassians, Kalmyks, Tartars, Karapaks, Dagestanians, Armenians, Kurds and a multitude of wandering people in the heart of Asia, forming a confluence of more than fifty nations which recognize the rule of the great white czar, thronee inside the Neva, and which bring to him on his coronation their tokens of allegiance.

More than fifty languages and twice that number of dialects are spoken in Russia, and the newly crowned ruler receives delegations in all of them. The ceremony, according to usage, is a grand and magnificent affair, and the dressing him in his robes is made as gorgeous and spectacular as possible, and to impress upon the minds of the representatives of their distant and scattered peoples a sense of the grandeur and power of their ruler, and it is without doubt the most magnificent performance of the kind now to be seen in the world. It costs on an average four or five millions of the money, besides the private outlay.

The new czar is soon to be crowned, the ceremony taking place in the cathedral of the Assumption in the Kremlin, according to custom, and promises to be as costly and splendid as any which that venerable temple has ever witnessed. It will be a great day for Holy Russia, and in its opinion well worth the outlay.

DEPOSITORS AND VOTERS.

The interesting statement is made, on the authority of the controller of the currency, that there are in the United States 3,000,000 individual bank depositors, says the Philadelphia Ledger. There are about 12,000,000 voters, reckoned on the basis of the last census, and the inference would seem to lead to the inference that nearly three-fourths of the money in this country belong to men in vote, which would be high testimony to their wealth and intelligence, and the general wealth of the country, but we weak point of the argument is that very few of the voters are women, while many of the depositors are.

The argument which has been drawn from these figures, that way in the hands and little more than away in the hands, is not conclusive, though it may be approximately correct.

POPULAR CHINESE BELLE.

Mrs. Yang Yu, wife of the Chinese minister, is the first Chinese woman who has taken an active part in Washington society, says the Philadelphia Times. Her job at home would be amazed if they knew that she went to dinner parties and receptions and teas just like any barbarian and receives and returns visits regularly. She is out every day with one of the secretaries of the legation, who acts as her interpreter, and probably enjoys herself more than any other woman in Washington.

It appears, however, that she is not Yang Yu's real wife. She is what the foreigners in China politely refer to as a secondary wife, and Chinese marriage is usually a matter of choice or fate. Their children are legitimate, but they do not have the recognized position of the first wife, who is married with solemn ceremonies.

The minister has never attempted to conceal the fact that he has other wives at home, but wisely explained to the wife of a recent secretary of state that he brought the prettiest one of them with him as a compliment to the American embassy.

Mrs. Yang Yu is very pretty from a Chinese standpoint and wears some exquisite gowns, or whatever they call their outside garments. And she is very capable, too. She does not make the comment with startling frankness upon the appearance and customs of the American barbarians as most of her kind are calling upon the wife of a member of the cabinet the other day when that lady said to the interpreter:

"Please tell Mrs. Yang Yu that I think she has a very pretty gown."

The interpreter, commended the message and the Chinese beauty retorted instantly:

"I think your gown would be very pretty if you did not squeeze yourself so at the waist."

EXPENSIVE FUNERALS.

The extravagant expense incurred at funerals through the extravagant bills run up by undertakers, which in the majority of cases the survivors are ill able to afford, receiving a stinging rebuke at the hands of Judge Davidson, of Montreal, in delivering a judgment which commends itself for sound sense, says the Insurance Economist.

Madame Selby became a widow and an orphaned child, and her poor husband, this was done in the most ostentatious style, and a full set of the widow for \$125. The lady held that the amount was too steep, and refused to pay more than \$40, alleging that the undertaker had gone beyond all reason in charging \$60 for a coffin, \$10 for embalming, \$30 for clothing, three double carriages at \$12, and the rest, Judge Davidson decided at once that the amount of \$125 was quite sufficient, and went on to say that if the dead could only see the useless expenditure that their funerals entail they would think it strange indeed. As for Selby, who had been a drunkard and had died from the effects of strong drink, he would have laughed in his sleeve to see all the fuss that had been made over his remains.

DEPOSITORS AND VOTERS.

The interesting statement is made, on the authority of the controller of the currency, that there are in the United States 3,000,000 individual bank depositors, says the Philadelphia Ledger. There are about 12,000,000 voters, reckoned on the basis of the last census, and the inference would seem to lead to the inference that nearly three-fourths of the money in this country belong to men in vote, which would be high testimony to their wealth and intelligence, and the general wealth of the country, but we weak point of the argument is that very few of the voters are women, while many of the depositors are.

The argument which has been drawn from these figures, that way in the hands and little more than away in the hands, is not conclusive, though it may be approximately correct.

APPEAL

Famous Merritt-Rockefeller Case Comes Up in Court of Appeals.

United States Judges Caldwell, Thayer and Sanborn Sitting at St. Louis.

Brief Resume of the Case and Its Principal Features.

St. Louis, Jan. 27.—Today in the United States court of appeals judges Caldwell, of Arkansas; Thayer, of St. Louis; and Sanborn, of Minnesota, sitting, arguments were begun in the great case, in some respects, that has never been before the courts of the state. John D. Rockefeller, president of the Standard oil company, is the defendant. The amount involved is approximately \$100,000. At the trial of the case on its merits in the United States circuit court at Duluth, Minn., before Judge Miller and a jury, a verdict was given for the plaintiff, Alfred Merritt, Jr., for \$100,000. Mr. Rockefeller's interests are represented by George A. Harris, of New York, and associates. The plaintiff is represented by Col. A. A. Harris, of Duluth, and associates.

In August, 1886, the Merritts, who had the controlling interest in some iron mines in St. Louis county, Minn., valued at \$100,000, went into a deal with Rockefeller. A new company was formed, known as the Lake Superior Consolidated Mining company, and the Merritts received stock in the new company in exchange for their interests. Merritt, in his original bill, charges that Rockefeller retained for his part bonds, secured by first mortgage bonds, to the value of \$100,000 on the property, which the stock held by the Merritts was subject.

He alleges that Rockefeller represented his mine to be a prosperous, dividend paying condition, whereas the contrary was the case; that while Rockefeller agreed to a valuation of \$100,000 on the Merritts property, they were really worth between \$200,000 and \$300,000, and that they subsequently discovered that while they yielded their interests for stock in the Consolidated company, Rockefeller retained for his part bonds, secured by first mortgage bonds, to the value of \$100,000 on the property, which the stock held by the Merritts was subject.

CAUGHT A CROOK.

But New York Police Do Not Know Him.

New York, Jan. 27.—Acting Capt. O'Brien, of the detective bureau, has in his custody, at police headquarters, a man who gives his name as Andrew J. Anderson, and is believed to be a Chicago crook. The detective has recovered a quantity of valuable silverware, clothing and bric-a-brac found in the man's possession. Some of the silver has been identified as part of that stolen recently from the homes of Thomas F. Oakes, at Marquette, and James L. Kencham, at Menasha, Wis. The prisoner is a smooth-faced man of middle age, whom the police of this city do not know. Some of the plate is past identification, but has been melted down and has been recovered in the shape of raw silver.

The whole of the goods recovered forms less than a tenth part of the proceeds of the robberies in which it was obtained. The rest of the goods, supposed to be hidden somewhere in the woods, near Menasha. The police are looking for it and for Anderson's confederates. From the fact that a number of commutation tickets of the Illinois Central railroad to suburban places of Chicago were found in his possession, the police believe that Anderson is well known in that city, and have forwarded his photograph to the Chicago police, with an inquiry as to his record.

ALASKAN MURDER.
Seattle, Wash., Jan. 27.—A steamer Rustler, which was on a voyage from Alaska state, had on board a man who had been convicted of murder in Alaska. The man was named John K. Kish, a medicine man of the Hoonah tribe, to cure a young Indian. The medicine man, named John K. Kish, who immediately shot the doctor. Then the doctor's cousin shot the lawyer of the doctor. A few blankets saved the deal.

IN OLDEN TIMES.
People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Piles will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

Scott's Emulsion

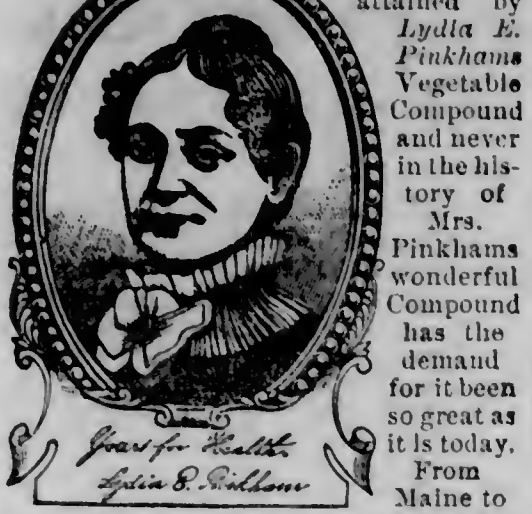

stands for wasting, decreased vitality, impoverished blood. The combination of Cod-liver Oil with the Hypophosphites of lime and soda as prepared in it, is exactly what is needed for the above conditions.

MERITED REWARD.

SALES OF LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Unequalled in the History of Medicine. Honesty, Excellence, Faithfulness Fully Rewarded.

(SPECIAL TO OUR LADIES.)
Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by

Lydia E. Pinkham's Vegetable Compound and never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by

It will cure the worst forms of female complaint, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the cure of life.

Backache.
It has cured more cases of lumbago by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors.

Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick-headache. Mrs. Pinkham's Sensitive Wash is frequently found of great value for local application. Correspondence is freely solicited by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the strictest confidence assured. All druggists sell Pinkham's remedies.

Vegetable Compound in three forms.—Liquid, Pills, and Lozenges.

VENEZUELAN DATA.

Found in a Wisconsin Collection of Books.

Madison, Wis., Jan. 27.—The Tan collection of books, in the Dutch language, one of the rich possessions of the State Historical society library, appears destined to play a considerable part in the deliberations of the Venezuelan commission. The Hon. Andrew D. White, one of the commissioners, a short time ago wrote to President Wymann, of the state university, asking him to state whether the Tan collection for any historical works or others bearing upon the boundaries of old Dutch Guiana.

A HUNDRED REASONS.
Can be given why Stuart's Dyspepsia Cure for every form of indigestion. They are in tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to the taste. After casual use, one or two of them in the mouth and, mingling with the food, they constitute a perfect digestant, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure.

STUART'S DYSPEPSIA TABLETS make the complexion clear by keeping the blood pure. They increase flesh by digesting fermenting foods. Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and indigestion. One disease, one remedy, the successful physician of today is the specialist. The successful medicine of today is prepared especially for one disease. The whole package taken at one time would not hurt you, but would simply be a waste of good material.

Over 600 men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

MORE INSURANCE SWINDLES.
Wichita, Kan., Jan. 27.—The jury in the case of Mrs. Irene Leonard, charged with being an accessory to the murder of her husband last August for \$500 life insurance, disagreed at midnight last night and was discharged. Her former husband, Martin Williams, who is charged with having been in the conspiracy with her, was put on trial today. He is charged with the divorce of his wife shortly before she married Leonard, and last fall. Evidence showed they five hours before the murder was committed in Leonard's own home. Their son, Neville Williams, is also implicated.

OLD IMAGE FOUND.
Parksburg, N. Y., Jan. 27.—A portrait, believed to be of an old Indian, was found in a sitting position. It is smoothly and beautifully carved, well preserved and shows the facial features clearly and regularly. Professor Stahl, to whom the image was found, has been added, thinks the date back many centuries, probably to the times of the civilization of the Indians.

It suffering with piles, it will interest you to know that Dr. Williams' Pink Pills will cure the disease. This medicine is a specific for all complaints of this character, and restoring the blood, the system is carried out a cure will result. We have tested this in the most severe cases, always with like results. It never fails. S. F. Boyce.

CONDENSED DISPATCHES.

The British ship *Tea*, from Calcutta for New York, with a general cargo, arrived at Boston, Mass., a guest of the New York hotel, and was taken to New York harbor with seven feet of water in her hold.

During a New York fire Anna May, 20 years old, of Boston, Mass., a guest of the New York hotel, jumped from the fifth story platform of the fire escape and was instantly killed.

At the bridge on the Maine river, about eight miles above Toledo, broke last night and carried away two spans of a new bridge which is being built there.

Lord Smith, Douglas, son of the marquis of Queensberry, will have a private suit of Dan Stuart's tulle carried at \$100.

Blaine Lynch, a Maryland boy of 10, committed suicide by jumping down a coal shaft, 100 feet deep. He had been killed and horribly mangled. He left a note to his father saying: "You will find my body at the bottom of the shaft, and I will meet you skating in hell."

Lindley Hoffman Chapin, a New York millionaire and popular club man, died of heart failure at his home in New York city, a victim of a severe personal friend of Archbishop.

Lord Leighton has bequeathed his Kensington residence in trust for the future presidents of the Royal Academy. A man who claimed to be Count Gustav, a Swedish nobleman, was arrested at St. Petersburg, and when it did not arrive at the consulate, he was sent to the city of St. Petersburg.

Charles H. Johnson, N. Y., first totally destroyed the Avenue home, and spread to the city of New York, total loss, \$100,000. The collection of antiques, valued at \$200,000, was lost by the fire.

A. C. WEISS, General Manager of The Duluth Evening Herald, does solemnly swear that the actual net increase in the circulation of The Evening Herald since December 1st, 1895, to and including January 10, 1896, is 2240 full and complete copies. This does not include any sample copies, but is the actual bona fide increase of new subscribers and street sales.

A. C. WEISS, Notary Public, St. Louis Co., Minn.

THE WEATHER.
United States Agricultural Department, Weather Bureau, Duluth, Jan. 28.—No precipitation has been reported during the past twenty-four hours.
The temperature has changed to much warmer in Manitoba, the Dakotas, Montana and Minnesota.
Duluth temperature at 7 a. m. today: 15; maximum yesterday, 28; minimum yesterday, 11.
Local forecast for Duluth and vicinity until 7 p. m. tomorrow: Partly cloudy; colder by Wednesday; variable winds becoming northwest.

Chicago, Jan. 28.—Forecast until 8 a. m. tomorrow: Minnesota: Fair tonight with warmer in east portion; Wednesday fair with colder in west portion; southerly winds. Wisconsin: Fair tonight with warmer in east portion; Wednesday fair; southerly winds.

IS NOT RETROACTIVE.
The Minnesota legislature of 1895 passed an insolvency law, which provides for the release of insolvents, and indicates the method of procedure under which the release can be accomplished. A Duluth insolvent applied a few days ago to be discharged from his debts under the provisions of this act, and the creditors have been called upon to show cause why the application should not be granted. This is the first application made in this judicial district to take advantage of the relief offered to insolvents by the new law, and consequently the attention has attracted considerable application in legal circles.

Judges Russell and Belden, of Minneapolis, yesterday filed a decision upon a similar application made by an insolvent firm in that city. The two judges decided that the law of 1895 is unconstitutional as to creditors whose claims were contracted before the passage of the act, being in derogation of the constitution of the United States in that it impairs the obligation of contract. What effect the law may have upon debts contracted subsequent to its passage the court did not decide, because the point was not presented. The sole question at issue in the case under consideration was the effect on debts previously contracted.

In their decision Judges Russell and Belden say: "The insolvency law of 1895 provided for a release by the creditors of their debts before participating in the dividends declared in the insolvency proceeding. The new law absolutely releases the debtor from all debts which have been proved against his estate. That is, it provides that where an application is made by an insolvent debtor, and he shows that he has complied with the terms of the statute, and not concealed or held back any of his estate or sought to prefer any creditor, he may be discharged from the debts of all creditors who have appeared in the proceeding by filing their

claims or by doing other acts which the law provides are an appearance in respect of when the debts were contracted, the assignment made or the claim filed.
"In effect it strikes out of the old law requiring a voluntary release by the creditor before the debtor is released, the most radical and material change and certainly affects the obligations of the debtor to the creditor. It not only affects the procedure, but it destroys substantial procedural rights. When the debtor is released under the law of 1895 was in force and became a part of the contract. * * * Under the new law the contract is changed and the debt of the creditor discharged where he has merely complied with his right under the old law of filing a claim. * * * The statute reads, something into the contract which was not there before."

THE SALOONS FOR TRUENEN.
Almost every saloonkeeper in the city is an open supporter of Henry Truelsen for mayor. What does this mean? Has Henry given a pledge that he will have saloons open to the public? It certainly looks like it. The saloon men are not working too hard for his election and trying to persuade every person they meet that he is the best man, without having been given assurance that he will be the best man for them.

It was stated early in the campaign that the saloon men intended to interpose their candidate and endeavor to have a saloon run by the saloon men. It is now stated that the saloon men are not promising of any kind, because he has repeatedly declined to enter into any promises or pledges, and because the saloon men are now opposing him. But what did Mr. Truelsen promise? He must have given a satisfactory pledge to the saloon men, because they are now urging his election and getting what is known as the saloon vote solidly into line for him.

The people of Duluth want an administration run by the saloon men. They want a "wide-open policy," with all its attendant evils, inaugurated in this city. Do they want saloons running all night and all Sunday, and gambling houses operated without restriction? The Herald does not believe that the people want such an administration, and this is the administration that we would have should Mr. Truelsen succeed in his ambition. Duluth several years ago set the stamp of disapproval upon the "wide-open policy," and it does not propose to return to it. For this, among other reasons, Mr. Truelsen will be defeated.

IN WEST DULUTH.
The statement made in The Herald's West Duluth column yesterday that David Sazig, the independent candidate for alderman in the Eighth ward, is supporting Mr. Truelsen for mayor, did Mr. Sazig indignantly. He is supporting Mr. Allen and is urging all his friends to vote for the Republican candidate for mayor. Both the aldermanic candidates in the Eighth ward are Allen, Alderman Mitchell, being as staunch a supporter of Mr. Allen as there is in the city. The Eighth ward will give Mr. Allen a heavy majority, as will the portion of the Seventh ward that was within the limits of West Duluth village.

Mr. Allen is the strong favorite in that section, and in what was formerly West Duluth his majority will run far into the hundreds. There are a few Truelsen men there who were conspicuous advocates of the purchase of the water company's plant, and they are making loud boasts that Truelsen will sweep that section of the city, but they are merely talking for effect. The people of West Duluth, who are backed by heavy assessments, caused by a policy similar to that which Mr. Truelsen would pursue, if elected, will vote for Mr. Allen, who stands upon a platform declaring for retrenchment and economy.

WILL PASS THE SENATE.
A Washington dispatch says that, all talk to the contrary, Senator Davis' resolution on the Monroe doctrine is sure to pass the senate by a decisive majority. A poll of the upper branch of congress has been made, and there will not be more than twenty votes against the resolution, just as it was reported. Part of the Eastern press has been severe in its strictures against Senator Davis, and some papers have intimated pretty broadly that he is bidding for a presidential nomination at the expense of an indirect declaration of war. This sentiment was given a quietus yesterday by an article in the New York Advertiser, written by Murat Halstead. Mr. Halstead commends Senator Davis' position and says that it is a far more dignified utterance than that of President Cleveland in his Venezuelan message to congress.

STATE FACTS ONLY.
While it undoubtedly is true that exaggerated reports of the typhoid epidemic in Duluth have been circulated throughout the country, it is folly on the part of the News Tribune to deny that it has been a most calamitous visitation. While it is true that the death rate in Duluth for the past two months is less than the death rate in many other cities, it is also true that the great extent of the disease is not indicated by the death rate, because in comparison to the number of cases the mortality has been low. But the amount of physical suffering and financial loss occasioned to the citizens by the disease has been very great.

It is desirable, however, that the outside world should be informed that the epidemic has ceased and that very few new cases are now being developed. The fact should be given with circumspection that steps have been taken to correct the cause of the epidemic and that an ample supply of pure water has been assured. Duluth has undoubtedly suffered much injury by the reports which have

gone abroad about the spread of the disease and the mortality resulting therefrom. In numerous instances these reports have been grossly exaggerated, but it is the penalty which we must pay for our own negligence.
With a pure supply, which is now assured, Duluth ranks among the healthiest cities in the country. Let the facts be given to the world, but let not any facts connected with the epidemic be denied, because such action will result in nobody believing that the epidemic has been wiped out and its cause removed. No doubt those who would fain deny the facts now are actuated by the best of motives, but it is a mistake policy and, if adopted, would prove injurious. The truth only should be stated—nothing more, and nothing less—and then the rest of the country will believe it.

The Truelsen combination played to only a fair-sized audience at Point du Lac last night, but the star was not at his best and other members of the cast were indeliberately so that the performance was hardly as good as usual. Even the free hour when they were satisfied with the amount of their holdings, the prospect of the world will be informed of the prospects.

Prink Dunn sold a forty-acre tract on the lake, or 3000 feet, and an Ottawa company has paid \$2000 for a sixty-acre lot in the Manitowish district. Wilson for constant. The light is for the office of city treasurer between Wilson and L. A. Marshall.

About twenty-five members of the general assembly of the state met at a formal meeting at the Vermilion in the city of Duluth, Minn., on Saturday last. The meeting was called by the state committee, and the delegates were regaled with tales of this vicinity and all enjoyed their visit immensely. D. B. Groat, secretary of the state committee, was most impressed with the advantages of Duluth as a summer resort, and Professor Thomas Shattuck, of the Vermilion, was most impressed with the advantages of Duluth as a winter resort.

The Chicago Inter-Ocean advises all persons who attend the Democratic convention next July to bring light-colored clothing, and that they should be a light color. The Chicago Inter-Ocean advises all persons who attend the Democratic convention next July to bring light-colored clothing, and that they should be a light color.

The Rochester, N. Y., Herald says that Secretary Carlisle has shown a self to be "the equal of any secretary of the treasury since the days of Alexander Hamilton." Why does it except Hamilton?

The fact that the corporations are all fighting Mr. Allen's candidacy for mayor is the best evidence that he would be the right man in the right place.

Forgeries to the amount of \$3,000,000 are reported from China today. This is the most extensive series of forgeries ever announced.

There is not one valid reason why any Republican vote should be cast for Mr. Truelsen.

The Davis resolution on the Monroe doctrine is endorsed by every patriotic American.

CHILDREN IS POPULAR.
Herman Enterprise: Much is said of the popularity of the character of Mr. Tuttle in the Republican nomination for governor. The general action in the Great Republic is to make a man like Mr. Tuttle popular, and the fact that people don't like him will show me anybody that knows him. Mr. Tuttle and don't like him, I'll show you a man that can't be put on an exclusive list of liars' tables, and according to the advertisements—see the character of Mr. Tuttle is being a good fellow.

There is a little bit of history connected with that whole pack of Mr. Tuttle extended the courtesy over both sides of the water to Mr. Baker.

DAVIS HAS FEW EQUALS.
Albert Lea Times: The speech of Senator Davis in support of his resolution introduced in the senate for the purpose of re-establishing and strengthening the Monroe doctrine was a brilliant and logical exposition of the famous doctrine. In matters concerning our relations with foreign affairs, Mr. Davis has but few equals on the floor of the senate.

NOIR HAVE DULUTHIANS.

GOSSIP FROM TOWER.
The Rainy Lake Gold Deposits All Right.

Tower, Minn., Jan. 28.—(Special to The Herald.)—After several changes in opinion the permanence of the Rainy lake gold deposits has been generally regarded as being established. In the same river district several shafts have been sunk to a depth of 125 feet and over, and the veins found in the size and richness with little variation. The favorable opinion of Professor W. Hamilton Merritt, of the Toronto School Mines, and the amount of money spent by the English syndicate for which he examined the district, are indications of the prevailing sentiment of the mining men. The syndicate has secured options on many of the more prominent tracts in the Rainy lake district between Bad Vermilion numerous forty-acre lots from explorers at prices ranging from \$500 to \$1500 each. The Duluth Evening Herald contains great secrecy as to the results obtained at their mine, but in view of the general opinion of the district, it is believed they are quietly securing control of everything offered at reasonable prices. Even the free hour when they are satisfied with the amount of their holdings, the prospect of the world will be informed of the prospects.

Prink Dunn sold a forty-acre tract on the lake, or 3000 feet, and an Ottawa company has paid \$2000 for a sixty-acre lot in the Manitowish district. Wilson for constant. The light is for the office of city treasurer between Wilson and L. A. Marshall.

ABSOLUTELY PURE

ENGLAND'S COLONIES.
Historical Sequence of Her Present Possessions.

The following is a historical sketch of Great Britain's acquisition of her colonial empire, says the Chicago Tribune:
1580—Perrin Island, Red sea, was occupied. A dockyard was established at Bermuda.
1600—By the peace of Amiens she secured Trinidad island in the West Indies and Ceylon in the East Indies.
1602—Captured Santa Lucia island, West Indies; British Guiana and Kandy in India were annexed.
1607—Annexed Goree, Africa, and established protectorate over Broda, India.
1608—The Cape of Good Hope was taken from Holland.
1609—Captured Sierra Leone and captured Heligoland in the North sea. (The latter was recently sold to Germany.)
1610—Captured Travancore, India.
1611—Captured Mauritius, Indian ocean from the French.
1612—1613—Occupied and commenced to colonize Australia.
1614—By the peace of Paris acquisition of Malta, Cape of Good Hope, Natal, Mauritius and Tobago island, West Indies, was confirmed.
1615—Seized Ascension Island, Kumaon, India, was ceded.
1616—Annexed the islands of Tristan da Cunha, South Atlantic.
1617—Annexed Pondicherry in India.
1618—Seized Singapore.
1619—Extended boundaries to Cape of Good Hope territory and annexed Port Elizabeth.
1620—Took possession of the British African company's trading ports on the Gold coast.
1621—Conquered Port of Burmah, India.
1622—Territory near Singapore was ceded to England by the sultan of Johore.
1623—Malacca was ceded by the Dutch in order to persuade England to leave Sumatra, which had been forced occupied. Annexed Tasmania.
1624—Penang was incorporated with Singapore and Malacca.
1625—Took possession of a large part of Burmah, India, by boundary settlement.
1626—Occupied West Australia.
1627—Mysoore, India, came under British control.
1628—Acquired more territory in Assam.
1629—Seized the Falkland Islands, and annexed King, India.
1630—Seized Socotra, India.
1631—Seized Aden, Arabia.
1632—Seized Siam, Siam.
1633—Seized Siam, Siam.
1634—Captured Hong Kong, China.
1635—Colonized Vancouver island. Still further enlarged the borders of Cape of Good Hope colony to include Natal.
1636—Annexed Sind, India.
1637—Purchased the Danish Indian possessions.
1638—Acquired Labuan islands, near Borneo, for suffering piracy.
1639—Enlarged borders of Cape of Good Hope colony by annexing the Orange river territory.
1640—Annexed Satala and Punjab, East India.
1641—Purchased the Danish possessions in the East Indies.
1642—Colonized Victoria, Australia.
1643—Conquered Pegu, India.
1644—Annexed Jhansi, Berar and Nagpur, India.
1645—Annexed the Kuria Muria islands, India.
1646—Colonized Norfolk island, Australia.
1647—Annexed the Kuria Muria islands, India.
1648—British crown takes control of British East India company's territory.
1649—Colonized Queensland, Australia.
1650—Annexed Kowloon to Hong Kong colony.
1651—Annexed Lagos island, Gold Coast, Africa.
1652—Annexed Quish and Shebo, native kingdoms that adjoined boundaries of Sierra Leone, Africa.
1653—Seized Morant and Pedro Gays, Jamaica, West Indies.
1654—Annexed Bhutan Dwar, India.
1655—Annexed Kaffraria.
1656—Diamonds discovered in South Africa.
1657—Purchased Little Aden.
1658—Bought Dutch possessions on Gold Coast.
1659—Annexed twelve islands—Australia, South Africa, and the Fiji Islands. Established protectorate over South Africa.
1660—Established protectorate over Perth, North Borneo.
1661—Annexed Transvaal, South Africa.
1662—Seized Amoyne Cay and Spratly islands, China sea.
1663—Queen of England proclaimed empress of India.
1664—Occupied Cyprus island.
1665—Enlarged borders of Sierra Leone, Africa, by annexing the Sherries territory. Invalued Afghanistan, India.
1666—Annexed Oriskanyland to Cape Colony.
1667—Established protectorate over Saranak, Borneo.
1668—Annexed Saranak.
1669—Colonized southern part of New Guinea.
1670—Sierra Leone enlarged by annexation of territory to the Niger river (Niger coast) protectorate established. Walvisch bay annexed to Cape Colony.
1671—Tomboland, Pomaland and Sadoland enlarged to the Niger river.
1672—Upper Burmah, India, annexed.
1673—Annexed Seychelles islands, Indian ocean. Xerich country annexed to Cape Colony.
1674—Pondoland and Zululand annexed to Cape Colony. Zululand occupied. Protectorate over Somaliland.
1675—In the Pacific Cook's islands, Christmas island, Penrhyn islands, Fanning island, Suvarow island and Johnson island were seized. The latter were restored to Hawaii.
1676—Seized Humphrey island, Christmas island, near Straits Settlements, were seized and joined to Singapore Colony.
1677—Annexed protectorate over Zanzibar, British East Africa, of Arabia.
1678—Annexed adjacent to Gold Coast Colony, Africa. Annexed Nyassaland.
1679—Annexed additional territory in North Borneo.
1680—Enlarged borders of Niger Coast territory.
1681—Endeavored to extend British Honduras and acquire Mosquito Reservation, Nicaragua, but accepted money indemnity for British representative whose annexation schemes had aroused their indignation.
1682—Enlarged territorial boundaries near Siam to effect French endeavors to grab Siam.
1683—Great Britain has almost gobbled up nearly everything in sight in the Far East, and now wants more in America, Alaska, and wherever it might gain a foothold.

Mrs. Katherine Wilson is the house-
 holder at the ultra-fashionable Lexington
 hotel, Michigan avenue and Twenty-
 second street, where President Chan-
 del and his entire cabinet and favored
 celebrities gather; were entertained in
 the rainy days of the World's fair.
 "Dear Mr. Wilson, I liked that
 soap." "It was unique inasmuch as it
 is the first preservation of the kind."

ork it did I could scarcely believe
sight. Just a little rinsing out
ate, made soft and velvety by Bo
d everything (cotton, woolen and
alike, was cleaned and

asked it did I could scarcely believe my eyes. Just a little pinching out of the skin made soft and velvet to the touch. And everything (cotton, woolen and silk) pressed against me felt like heaven. My pillow was changed and appeared completely different. I never again would sleep like this in my life. It will now estimate value as housekeepers."
